April 1—Spring Recess Ends 8:25 a. m. Thursday.

June 6-8—Commencement.

June 11-12—Re-examinations.

# TRUSTEES

The legal and corporate title of the institution is "The Trustees of Davidson College." The trustees are elected by the Presbyteries of North Carolina and Florida and by the Alumni Association. The Presbytery of Concord is entitled to elect eight, Mecklenburg five, Orange and Fayetteville four each, the other five Presbyteries in North Carolina and the three Presbyteries in Florida two each, and the Alumni Association twelve, making a total of forty-nine. All trustees are elected for a term of four years. An Executive Committee of ten members is elected annually, at the Commencement meeting of "The Trustees," and this Executive Committee exercises practically all the powers of "The Trustees" during the intervals between the meetings of that body, subject, however, to the review and control of "The Trustees."

## PRESBYTERIES OF NORTH CAROLINA

| <i>Name</i>          | <i>Post Office</i>    | <i>Presbytery</i> | <i>Exit</i> |

# FACULTY\*

WALTER LEE LINGLE, *President* (1929)

A.B., M.A. (Davidson), (Union Theological Seminary), (University of Chicago),  
D.D. (Davidson), LL.D. (Southwestern), (Duke University),  
(University of North Carolina)

WILLIAM JOSEPH MARTIN, *President Emeritus*

(Professor of Chemistry 1896-1912; President 1912-1929)

A.B., M.A. (Davidson), (Johns Hopkins), M.D., Ph.D. (University of Virginia),  
LL.D.

CALEB RICHMOND HARDING (1888)

A.B., M.A. (Davidson), Ph.D. (Johns Hopkins)  
*Professor of Greek Language and Literature, Emeritus*

WILLIAM RICHARD GREY (1893)

A.B. (Davidson), Ph.D. (Johns Hopkins)  
*Professor of Latin Language and Literature, Emeritus*

JOHN LEIGHTON DOUGLAS (1897)

A.B., M.A. (Davidson), (Johns Hopkins), LL.D.  
*Professor of Pure Mathematics, Emeritus*

JAMES McDOWELL DOUGLAS (1902)

A.B., M.A. (Davidson), Ph.D. (Johns Hopkins), (University of Chicago), (Cornell  
University), (Columbia University)  
*James Buchanan Duke Professor of Physics*

MARK EDGAR SENTELLE (1903)

A.B., M.A. (Davidson), M.A. (Yale University), D.D., LL.D.  
*Dean of Students and J. W. Cannon Professor of Bible and Philosophy*

JOHN WILSON MACCONNELL (1908)

A.B., M.A. (Davidson), M.D. (University of Maryland)  
(Columbia University), (University of Edinburgh)  
*Professor of Physiology and Hygiene*

THOMAS WILSON LINGLE (1908)

A.B., M.A. (Davidson), Ph.D. (Leipsic), (Graduate Princeton Theological Sem-  
inary), (University of Heidelberg), (Strasburg and Neuchatel), (Sorbonne)  
*Professor of European History*

HOWARD BELL ARBUCKLE (1912)

A.B., M.A. (Hampden-Sydney), Ph.D. (Johns Hopkins)  
*Chambers Professor of Chemistry*

---

\*Dates refer to first year of teaching service.

## ARCHIBALD CURRIE (1906)

A.B. (Davidson), (Columbia University), (Cornell University)  
*Woodrow Wilson Professor of Economics and Political Science*

## WILLIAM WOODHULL WOOD (1915)

A.B., C.E. (University of Virginia)  
*Professor of Mathematics and Applied Mathematics*

## CHARLES MALONE RICHARDS (1915)

A.B. (Davidson), D.D.  
*Professor of Bible, Church History and Government and  
 Christian Evidences*

## EDWIN FRANCIS SHEWMAKE (1919)

A.B. (College of William and Mary), A.M. (Columbia University),  
 Ph.D. (University of Virginia)  
*Alumni Professor of English*

## FRAZER HOOD (1920)

A.B. (Southwestern Presbyterian University), A.M., Ph.D. (Yale), (Johns Hopkins University), (University of Chicago), Litt.D.  
*Professor of Psychology*

## EDWARD JONES ERWIN (1920)

A.B., A.M. (Davidson), (Columbia University, 1910-12), (University of Chicago)  
*Professor of English*

## WILLIAM LORIMER PORTER (1921)

A.B. (Tarkio), A.B., A.M. (Yale)  
*Professor of Geology and Geography*

## FRED K. FLEAGLE (1921)

A.B., A.M. (University of Michigan), (University of Porto Rico),  
 (University of Chicago)  
*Professor of Spanish*

## KENNETH JOSEPH FOREMAN (1922)

A.B. (Davidson), A.M. (Princeton University), S.T.B. and S.Th.M. (Princeton Seminary), (University of Pennsylvania), D.D. (Washington and Lee University)  
*The James Sprunt Professor of Bible and Philosophy*

## CECIL KENNETH BROWN (1923)

A.B. (Davidson), A.M., Ph.D. (University of N. C.), (University of Besancon),  
 (Columbia University)  
*Professor of Economics*

## FRED LEROY BLYTHE (1923)

A.B. (Davidson), M.A. (University of N. C.), (University of Chicago), (Columbia University), (University of Madrid), (National University of Mexico),  
 M.A. (The Middlebury Spanish School), (El Centro de Estudios Historicos of Madrid)  
*Professor of Spanish*

## GUY RICHARD VOWLES (1925)

A.B. (Yankton), B.A., M.A. (Oxford University), Ph.D. (University of Chicago), Litt.D.  
*Professor of German Language and Literature*

## ERNEST ALBERT BEATY (1925)

A.B. (Davidson), M.A. (University of South Carolina), M.A. (Columbia University), B.D. (Columbia Theological Seminary)  
*Professor of Latin*

## HENRY TRACY LILLY (1926)

A.B. (Davidson), M.A. (Princeton University), (University of Vienna), (Oxford University), (University of Chicago)  
*Professor of English*

## SCOTT CARY LYON (1926)

A.B., M.A. (Southwestern Presbyterian University), A.M. (Tulane University), D.Sc. (Southwestern), (University of Chicago)  
*Richard J. Reynolds Professor of Biology*

## GEORGE BYRON WATTS (1926)

A.B. (Dartmouth), A.M. (Harvard), Ph.D. (University of Minnesota), (University of Berlin), (University of Montpellier)  
*Professor of French*

## JOHN PAYNE WILLIAMS (1926)

B.S. (Davidson), (Columbia University), M.A. (New York University)  
*Professor of Business Administration*

## PRICE HENDERSON GWYNN, JR. (1930)

A.B., M.A. (University of North Carolina), B.D. (Yale Divinity School), Ph.D. (Yale)  
*Professor of Education*

## JOHN CROOKS BAILEY, JR. (1932)

A.B. (Davidson), (University of Virginia), (University of Chicago), A.M. (Johns Hopkins)  
*Professor of Greek Language and Literature*

## OSCAR JULIUS THIES, JR. (1921)

B.S., M.A. (Davidson), (Massachusetts Institute of Technology), M.A. (Cornell)  
*Associate Professor of Chemistry*

## AUGUSTIN VICTOR GOLDIERE (1922)

A.B. (Dartmouth College), M.A. (Yale), (University of Caen), (El Centro de Estudios Historicos de Madrid), (University of Chicago), (Pennsylvania State French Institute)  
*Associate Professor of French*

## WILLIAM NELSON MEBANE, JR. (1923)

B.S. (Davidson), M.A. (Cornell), (Virginia Polytechnic Institute)  
*Associate Professor of Mathematics*

## HENRY EMMETT FULCHER (1925)

B.S., M.A. (University of Virginia), (William and Mary), (University of Chicago)  
*James Buchanan Duke Associate Professor of Physics and Astronomy*

## LEWIS BEVENS SCHENCK (1927)

A.B. (Davidson), B.D. (Union Theological Seminary), S. Th.M. (Princeton Theological Seminary), (Yale University)  
*Associate Professor of Religious Education*

## WILLIAM PATTERSON CUMMING (1927)

A.B. (Davidson), M.A., Ph.D. (Princeton), (University of Chicago)  
*Associate Professor of English*

## DAVID HALBERT HOWARD, JR. (1928)

A.B. (Davidson), Ph.D. (Cornell), (University of Virginia)  
*Associate Professor of Chemistry*

## FRONTIS WITHERS JOHNSTON (1935)

A.B. (Davidson), (Yale University)  
*Associate Professor of History*

## JOHN THOMAS KIMBROUGH (1928)

B.S. (Davidson), (University of Kentucky), (Carnegie Institute of Technology)  
*Assistant Professor of Mathematics*

## JAMES CHRISTIAN PFOHL (1933)

(University of North Carolina), B.M. (University of Michigan)  
*Director of Music*

## WILLIAM GILLESPIE MCGAVOCK (1934)

B.S. (Davidson), M.A. (Duke University)  
*Assistant Professor of Mathematics*

## ROBERT GANO BAILEY (1934)

B.A., M.A. (Wesleyan University), (Princeton University)  
*Assistant Professor of French*

## WARREN PERRY BABCOCK (1934)

B.M. (University of Michigan)  
*Assistant in Music*

## FACULTY OF THE RESERVE OFFICERS TRAINING CORPS

## JOHN TAYLOR RHETT (1932)

B.A. (University of South Carolina), Lieut. Colonel, U. S. Army  
*Professor of Military Science and Tactics*

## FRANKLIN MILLER COCHRAN (1930)

Major, Infantry, U. S. Army  
*Associate Professor of Military Science and Tactics*

## CHARLES WALDEMAR SEIFERT (1931)

B.S. (Georgia Military College), Major, Infantry, U. S. Army  
*Associate Professor of Military Science and Tactics*

## BLANTON ROY BURTON

Sergeant, U. S. Army  
*Assistant, Military Science and Tactics*

**OFFICERS OF ADMINISTRATION**

WALTER LEE LINGLE, A.B., M.A., D.D., LL.D.  
*President*

## FACULTY COMMITTEES

ATHLETICS—Professors Blythe, Currie, Wood, Mr. Jackson.

BUILDINGS AND GROUNDS—The President, Profs. Wood, Thies, Fulcher, Mr. Jackson.

DEBATES AND ORATORICAL CONTESTS—Professors Brown, Erwin, Beaty, Cumming, Bailey, J. C.

DEGREES (*Advanced Standing, Graduation, Graduate Work*)—Professors T. W. Lingle, Porter, Vowles, Registrar.

DRAMATICS AND MUSIC—Professors Erwin, Watts, Pfohl.

ENTRANCE REQUIREMENTS AND ADMISSION—Registrar, Dean of Students, President.

EXECUTIVE COMMITTEE (1935-36)—The President, Dean of Faculty, Dean of Students, Profs. Lingle, T. W., Blythe, Lyon, Gwynn, Brown, Lilly.

EXECUTIVE COMMITTEE (1936-37)—The President, Dean of Faculty, Dean of Students, Profs. Foreman, Bailey, J. C., Porter, Cumming, Thies, Fulcher.

FRATERNITIES AND CLUBS—Mr. Jackson, Professor Currie, Registrar.

HONORARY DEGREES—Professors Richards, T. W. Lingle, Currie, Hood, Foreman.

LIBRARY—Professors Lilly, Lingle, Brown, Cumming, Vowles, Schenck, Gwynn, Lyon, Miss Shaw.

OTTS LECTURES—Professors Hood, Beaty, Schenck.

PLACEMENT FOR TEACHERS — Professor Gwynn, Registrar, Alumni Secretary.

PLACEMENT FOR BUSINESS—Professor Williams, Registrar, Alumni Secretary.

PUBLIC LECTURES—Professors Shewmake, Brown, Lilly.

PUBLICATION BOARD—Mr. Jackson, Professor Fleagle.

RADIO PROGRAM—Mr. Jackson, Professors Shewmake, Pfohl, Alumni Secretary.

RHODES SCHOLARSHIP—Professors Vowles, Lilly, Cumming.

SCHOLARSHIP AND LOANS—President, Dean of Students, Treasurer Registrar.

SOCIAL LIFE—Professors Lyon, Erwin, Fleagle, Wood.

SEATING (*Chapel and Church*)—Professors Wood, Shewmake, Dean of Students, Registrar.

STUDENT PUBLICATIONS—Professors J. M. Douglas, Sentelle, Fleagle (Annual), Porter (Davidsonian), Cumming (Magazine).

STUDENT SELF-HELP—Professors Fleagle, Fulcher, Mebane.

Y. M. C. A.—Professors Arbuckle, Jackson, Bailey, J. C.

## HISTORICAL SKETCH

Davidson College was founded in 1837 by the descendants of those sturdy Scotch Presbyterians who came to America by way of North Ireland, and thus came to be known as the Scotch-Irish. The Scotch have for centuries been noted for their love for education and for their high educational standards. While Davidson was founded by these Scotch-Irish Presbyterians, it has never been sectarian in its teachings. The original charter, which was granted in 1838, states that the purpose of the College is "to educate youth of all classes without any regard to the distinction of religious denominations, and thereby to promote the more general diffusion of knowledge and virtue."

The Scotch-Irish began to settle in this beautiful, piedmont section of the Carolinas, in considerable numbers, as early as 1750. They built a large number of churches, and practically every church had in connection with it a good classical school. There were a score of such schools in the general territory in which Davidson College is located. Some of them became famous.

In due time this zeal for higher education resulted in a determination to found a Christian college of high rank. At that time there was no college of any kind in the western half of the Carolinas. Accordingly, in March, 1835, Concord Presbytery enthusiastically passed a resolution approving of the founding of a college. It is well to remember that at that date Concord Presbytery covered the whole of the western half of North Carolina. It included the territory which has since been set off into Mecklenburg and Asheville Presbyteries. A few months later Bethel Presbytery, which covered the upper and western parts of South Carolina, joined the movement to establish a college. As the years went by all the Presbyteries in North Carolina, South Carolina, Georgia and Florida united in the ownership and control of the college. In more recent years the Presbyteries of South Carolina and Georgia have withdrawn to build their own institution.

The leader of the movement to found a college was Rev. Robert Hall Morrison, pastor of historic Sugaw Creek Church,

near Charlotte, N. C. He and Rev. P. J. Sparrow, of Salisbury, N. C., raised \$30,000.00 for the proposed college in an incredibly short time. The new institution was named Davidson College as a tribute to the memory of General William Lee Davidson, a Presbyterian Revolutionary hero, who was killed at Cowan's Ford, only a few miles from Davidson College, as he opposed Lord Cornwallis. The land on which the college stands was secured from General Davidson's son, who, in turn, became a large contributor to the support of the College.

The corner stone of Davidson College was laid on April 7, 1836, "in the presence of a large concourse of people." The original buildings were erected on the four sides of a rather small quadrangle, on the front side of the present campus.

Five of those original buildings are still standing and still serving useful purposes. The main building stood on the north end of the quadrangle. It contained the class-rooms and the chapel, where daily chapel exercises and the church services were held. It came to be known as the "Old Chapel." In 1902 it was enlarged by the use of money contributed by Dr. J. B. Shearer, and then rededicated as "Shearer Biblical Hall." The Eumanean and Philanthropic Society Halls stood, and still stand, on the south end of the quadrangle. Oak Row stands on what was the west side of the quadrangle, and Elm Row on the east side.

On March 1, 1837, Davidson College began its career as an educational institution, with three professors (including the president), and sixty-five students. Rev. Robert Hall Morrison, D.D., was the first president. He resigned in 1840 on account of ill health, but continued to serve as a trustee of the College for a number of years. At first the College required each student to do some manual labor, but this proved unsatisfactory and was dropped at the end of four or five years.

We may anticipate here and say that the following is a complete list of the names of the presidents of Davidson College.

The dates indicate their tenure of office:

Rev. Robert Hall Morrison, D.D. (1836-1840).

Rev. Samuel Williamson, D.D. (1841-1854).

Rev. Drury Lacy, D.D. (1855-1860).

- Rev. John Lycan Kirkpatrick, D.D. (1860-1866).  
Rev. George Wilson McPhail, D.D., LL.D. (1866-1871).  
Prof. John Rennie Blake, A.M., Chairman of Faculty (1871-1877).  
Rev. Andrew Dox Hepburn, D.D., LL.D. (1877-1885).  
Rev. Luther McKinnon, D.D. (1885-1888).  
Rev. John Bunyan Shearer, D.D., LL.D. (1888-1901).  
Prof. Henry Louis Smith, Ph.D., LL.D. (1901-1912).  
Prof. William Joseph Martin, Ph.D., M.D., LL.D., (1912-1929).  
Rev. Walter Lee Lingle, D.D., LL.D. (1929).

During the first twenty years of its existence the young college had one prolonged financial struggle. It had a good faculty and the student enrollment was satisfactory, but there was no endowment and no adequate income for current expenses.

A sudden turn came in the affairs of the College when, in 1856, it received nearly a quarter of a million dollars, through the bequest of the late Maxwell Chambers of Salisbury, N. C. That was a large sum of money for those days. New and enlarged plans were made for the College. A new quadrangle of noble proportions was planned, about one hundred and fifty yards east of the old quadrangle. One unit in the new quadrangle was erected in 1857, at a cost of about \$90,000, and named "The Maxwell Chambers Building." It contained classrooms, auditorium and dormitories. The Old Chambers, as it came to be known, was a handsome building, and served a large purpose in the life of the College for a period of sixty-four years.

The Maxwell Chambers bequest also gave the College a real endowment, which greatly relieved the financial distress. The College started upon a new career. Then came the Civil War. The student attendance was greatly decreased and the greater part of the endowment was lost. Practically all the students and alumni of the College who were physically qualified enlisted in the army, and many of them lost their lives. After the war came the reconstruction period, with all of its demoralization. But in spite of this the College began to build up a stronger faculty than it had ever had in its history. Between 1868 and

1877 the following unusually able men became members of the faculty: Dr. Charles Phillips, Col. W. J. Martin, Dr. James F. Latimer, Dr. A. D. Hepburn, Dr. William M. Thornton, Dr. John Russell Sampson, and Dr. William W. Carson. Few institutions of that day could boast of such a group of men. As these men retired, other strong men took their places, and from that day to this the members of the faculty have ranked high in scholarship and in personality.

However, there was no large increase in the number of students, or in the endowment, between 1870 and the close of the century. The South had been impoverished by the Civil War. With the beginning of the twentieth century there was an educational revival in the South. Prosperity had also begun to return to this impoverished section. Under the energetic leadership of a new president, the College entered upon a period of expansion. The student attendance grew. The endowment was increased. New dormitories and other buildings were erected. The faculty was enlarged. In the campaigns for increased endowments the General Education Board in New York made a number of contributions and thus made the success of the campaigns possible.

On November 28, 1921, the Old Chambers Building was burned. It had stood there as the center of College life so long that its destruction seemed a mortal blow. But through the indefatigable labors of the president and his capable associates, the money was raised and a New Chambers Building erected at a cost of more than \$600,000.00. This building was completed in 1929 and dedicated at Commencement in 1930. The General Education Board and several loyal alumni made large contributions towards the erection of the New Chambers.

The year 1926 marks the beginning of a new era of expansion for Davidson College. In that year Davidson College began to receive five per cent of the income of "The Duke Endowment." Thus far this has increased the income of the College nearly \$70,000.00 annually. That has enabled the College to enlarge its faculty and increase its student body. The Duke Endowment was created by the late James B. Duke, of Charlotte, N. C., and New York, with a capital of \$40,000,000.00. The fact that a business man of such large affairs

should, without solicitation, remember Davidson College in providing for the distribution of the income from his endowment, is in itself a tribute to the College.

It is impossible to condense the history of Davidson College into a few pages. The full history has been written by Miss Cornelia Shaw in a book of over three hundred pages. The College is now nearly a hundred years old. Each generation has contributed something in love, in loyalty, in money, and in ideals to make its spirit finer than it was before. The infant institution of 1837 has grown into a strong College with an able faculty of over forty men, and a student enrollment of six hundred and fifty. The grounds, buildings and equipment are worth approximately \$2,000,000.00. The endowment which it holds in its own name amounts to about \$950,000.00. The income from The Duke Endowment, which is held by The Duke Endowment Trustees, represents an additional endowment of approximately \$1,175,000.00. The annual current expense budget of the College amounts to about \$275,000.00. The standing of the College in the educational world is indicated in some facts which are stated in the paragraph which follows:

Davidson College is a member of the Association of American Colleges, is on the list of colleges approved by the Association of American Universities, is a member of the Association of Colleges and Secondary Schools of the Southern States, and a member of the Presbyterian Education Association of the South. Davidson also has a chapter of the Phi Beta Kappa Society.

# 

## 

### 

Davidson College is located twenty miles north of Charlotte, North Carolina, on a branch line of the Southern Railway, and on the Davidson College Highway which is one of North Carolina's finest hard surfaced highways. It is easy of access from all directions by rail, by automobile, and by bus.

### 

The campus consists of about fifty acres. It is set in grass and shaded by elms and oaks. On this campus there are located fifteen college buildings. The College also owns sixty-five acres of land adjacent to the campus on which is a golf course.

### 

The Richardson Field is a splendid athletic field with a concrete stadium. It contains two football fields, a baseball diamond, and a cinder running track. This field was made possible by the generosity of two brothers, Messrs. H. S. and L. Richardson, and is dedicated to the memory of their father, the late Mr. L. Richardson.

The Sprunt Field is a well-graded athletic field, covered with a fine turf, and is used for Freshman football practice and drill ground. This field was made possible by the liberality of Mr. W. H. Sprunt, of Wilmington, N. C.

Near the athletic fields are a dozen well-constructed *Tennis Courts*, which are open for the greater part of the year.

*A Golf Course* is located on College property adjacent to the athletic fields. This course is open to all students free of charge.

## 

### 

New Chambers, replacing Old Chambers, which was burned November 28, 1921, is a magnificent structure of brick and

stone of some 325 feet of frontage. It is built in three units. One unit provides administrative offices, classrooms, and professors' offices. The middle unit contains a beautiful and spacious auditorium, seating nearly twelve hundred people and furnished with a Three Manual Skinner Pipe Organ, costing \$20,000, a gift of Mrs. Cameron Morrison, of Charlotte, N. C., who also gave a Steinway Duo-Art Piano for the auditorium. This unit also contains a Banquet Hall, seating six hundred, with a well-equipped kitchen; also a Trustee and Faculty Room. The third unit provides abundant space for the departments of Physics, Geology and Biology and is furnished with the best of laboratory equipment. The building cost \$600,000.00 aside from the organ and other furnishings.

### **The Library**

The Library Building was erected in 1910 through the generosity of Mr. Andrew Carnegie, at a cost of \$20,000.

The Library contains 38,939 bound volumes, comprising not only the most important and indispensable older books, but the best of the more recent books. The Library also includes a great number of the public documents and state papers of the United States Government, and a large number of valuable pamphlets not bound. Most of these are in place in attractive steel shelves. On the tables of the reading room are found over 173 of the leading monthly or weekly magazines and journals. The newspaper racks contain dailies from various sections of the country. There is a substantial fund set apart annually for the purchase of new books to meet the needs of the several departments of the College and of the student body as a whole.

### **Laboratories**

The Martin Chemical Laboratory was erected as a memorial to the late Col. W. J. Martin, who was Professor of Chemistry at Davidson for a quarter of a century.

The Biology Laboratory and the Physics Laboratory are located in the North Wing of the New Chambers Building. Both are well equipped.

### **Shearer Biblical Hall**

In 1902 the Old Chapel, which was erected in 1837, was rebuilt, enlarged and rededicated as The Shearer Biblical Hall.

It has been largely supplanted by the New Chambers, but its auditorium is still used for student mass meetings, band practice and other useful purposes.

### **The Literary Society Halls**

The Eumanean and Philanthropic Society Halls are among the oldest and most interesting buildings at Davidson. Both halls are well equipped for their purposes and have made a large contribution to the development of the literary and forensic ability of the students for many years. The rooms under the Society Halls are used by the Y. M. C. A.

### **Oak Row and Elm Row**

These quaint buildings served as dormitories when the College was first opened and for many years afterwards. They are now used as offices by student publications and other organizations.

### **Morrison Memorial Hall**

This building was erected in 1890, as a memorial to the first president of the College, and used for many years by the Y. M. C. A. At present it is used by the department of Physical Education.

### **Alumni Gymnasium**

This building was erected in 1914 from funds given by the alumni. The second story contains the gymnasium room, with a balcony, auxiliary gymnasium, office lobby, and two physical examination rooms. The third story contains the quarters of the gymnasium director, club room and classroom.

### **Museum**

A large room in the New Chambers Building has been set apart as a Museum. When the Old Chambers Building was burned in 1921 a very valuable mineralogical and geological

collection was destroyed, along with many articles of historical interest. Progress is being made towards a new collection. Geological and mineralogical specimens and such other collections as belong in a museum will be welcomed.

### **The College Infirmary**

The Infirmary is located on College property near the campus. It is in charge of Dr. J. W. MacConnell, College physician, and Mrs. Alice Robson, a trained nurse of long and successful experience. Students who are sick receive every possible attention.

The College fees entitle a student to free medical treatment by the College physician and nurse, for ordinary cases of sickness or accident. The student pays for all medicines, bandages, and so forth, except those of an inexpensive nature. Consultation with, or treatment by, any other physician than the College physician and any extra nursing are at the expense of the student. If it is necessary for the student to remain in the Infirmary he will be charged for board at the rate of \$1.25 per day. Students are advised to consult the College physician freely on all matters pertaining to their health. He is at the Infirmary office from 10:00 to 12:00 daily. If medical attention is needed outside these hours the student will report to the nurse at the Infirmary who will call the physician if needed.

### **Professors' Residences**

The College owns eighteen professors' residences, which are conveniently located in the neighborhood of the campus.

### **Dormitories**

There are five dormitory buildings. They are built of brick, heated by steam, and equipped with modern conveniences. The three largest dormitories are fireproof, and all of them have approved fire escapes. Although there are a few single rooms, most of the rooms accommodate two students. The rooms are furnished with single beds and mattresses, study table, chiffonier, and bookracks, and I. E. S. reading lamps. The student provides his own bed linen, blankets, towels, etc. Many students

also provide their rooms with rugs, curtains, chiffonier scarfs and other home-like touches. Rooms are cared for by competent janitors. Mrs. N. T. Smith is the efficient supervisor of dormitories. Neatness and tidiness are encouraged in the care of the rooms.

The following is a list of the dormitories with the capacity of each :

East Dormitory—One hundred and twenty-two students;  
West Dormitory—One hundred and twenty-two students;  
Watts Dormitory—One hundred and eighteen students;  
Georgia Dormitory—Sixty-three students;  
Rumple Dormitory—Sixty students.

### **Fraternity Court**

A unique feature at Davidson College is Fraternity Court. It consists of eleven houses for Greek letter fraternities which were erected by the College in a grove on the campus. These are attractive, one-story brick buildings. Each building consists of a large reception hall, another large room in which official meetings are held, and a kitchenette. The houses do not contain any dormitories and do not have any boarding departments. They are attractive social centers where the members of the fraternities meet and where they entertain their friends from time to time. These social centers render a good service in creating intimate friendships and in developing social gifts.

### **The Laundry**

The College maintains a laundry sufficient to do all unstarched work for the students. For hygienic and other reasons all students are required to patronize this laundry. The charge is as low as is compatible with the proper conduct and care of the plant. The College has recently installed a modern dry cleaning plant, which takes care of the work of the students and faculty at a minimum cost.

# REQUIREMENTS FOR ADMISSION

Applicants for admission should enter into correspondence with the Registrar at as early a date as possible. There is a limit to the number of students that the College can take. It is advisable, therefore, to make application for entrance and payment of the registration fee of \$10.00 at an early date in the spring. In acceptance of students, preference is given to those presenting the best evidence, in point of scholarship, character and personality, of qualifications for success in college work.

## Admission from High School by Certificate

The candidate must present a certificate (blank is furnished by the College on application) of his high school records, carefully and completely filled out and signed by the superintendent or principal of his school. In addition, the superintendent or principal must recommend that the applicant be accepted by the College, before his application can be considered. A statement of good moral character is required. For unconditional admission to Freshman standing it is necessary for the applicant to be a graduate of an accredited school and present from the authorities a minimum of fifteen units of high school work, as follows (figures represent minimum requirements in high school units):

|                        |   |
|------------------------|---|
| English .....          | 3 |
| Mathematics .....      | 3 |
| Foreign Language ..... | 2 |
| History .....          | 1 |
| Electives .....        | 6 |

English: As many as four units in English will be accepted, but this amount of credit will be allowed only when the Registrar is satisfied that the work done in any given school is of a superior order. No conditions are allowed.

Mathematics: No conditions are allowed. Two years of Algebra and one of Plane Geometry are required. The work in Algebra includes quadratics, binominal theorem and progressions.

Electives: It is recommended that Greek be offered among the electives for A.B. 1, and two units in French, German or Spanish in addition to Latin among the electives for A.B. 2. If Physics, Zoology, Botany or Agriculture is offered, a credit of one unit is given only when the course is accompanied by laboratory work, a suitable record of which is kept in a notebook. A credit of one unit in Bible is allowed, but the course offered by any school is judged on its merit. While a maximum of two units in vocational subjects may be accepted for entrance to the A.B. courses and three for B.S. courses, they are not considered generally desirable and will be carefully scrutinized as to content and time given to them. Purely mechanical courses are not accepted.

### **Admission in Special Cases**

In the case of a mature man, over twenty years of age, wishing to pursue a special course preparatory to entrance to a Theological Seminary, the Faculty may waive the ordinary entrance requirements, provided evidence of ability to carry college work in the courses to be pursued is given.

### **Admission by Examination**

Entrance examinations at the College are held from 9 A.M. to 12 M., and from 2 to 5 P.M., on Tuesday and Wednesday of the opening week. New students arriving later may be examined on entrance, but all are urged to be present at the opening of the term. Much is lost by delay of even a day or two.

### **Advanced Standing on Basis of High School Work**

To no high school is given the right to enter students by certificate in studies higher than Freshman. Candidates for advanced standing on the basis of high school work must pass an examination on such work at a time set by the Dean and the Registrar.

### **Advanced Standing from Other Colleges**

Certificates of courses successfully pursued at colleges and universities of equal grade with Davidson are accepted at their

full value. All transfer students must present a letter of honorable dismissal, together with a detailed statement of both high school and college credits to which they are entitled.

### **Matriculation and Registration**

Freshmen are registered on Tuesday and should arrive on Monday or early Tuesday. Tuesday evening at 7:30 the Freshmen meet in the Chapel, where one or more of the Faculty talk to them about their work and college life. These conferences are continued through Wednesday, according to a schedule announced Tuesday evening.

Old students returning are registered Wednesday and should complete their matriculation not later than the afternoon of that day. All students are required to report to the Treasurer and the Registrar within twenty-four hours after their arrival. This also applies, as far as the Treasurer is concerned, to all students returning for the spring term. Matriculation offices are in the Administration Building.

Students returning after Christmas report to the Treasurer by 5 P.M. of the opening day. Any student registering later than this is charged a delayed registration fee of \$2.00 a day until he registers, but the maximum total charge for delayed registration shall not exceed \$10.00. This charge is not made if the student is ill or if he is otherwise providentially hindered from registering on time.

New students are classified provisionally, in accordance with certificate previously submitted, examinations taken, and consultation with the professors in the respective departments.

A thorough physical examination at the opening of the fall term, or immediately on entrance, is required of each student at the hands of the College physician and the Professor of Physical Education.

### **Selection of College Courses**

The modern college offers such a wealth of elective courses and subjects that the inexperienced student is often at a loss what course he should pursue, even though he knows, or thinks he knows, what his life work is to be.

The majority of students have a fairly clear idea of what their work after college days is to be, especially if they are going into one of the professional fields. Those who have not decided on their life work are at some disadvantage, though not seriously so, if they are willing to spend a short time, after they have made their decision, in taking such basal courses as have been left out. Of such students some extra study will be required but they will be so much the better prepared.

Davidson College offers four fairly clear-cut courses, any one of which will give a student a good cultural education. We would suggest to students who are undecided about their life's vocation that they select that course which most nearly prepares them for some field toward which they have a leaning. If they change their line of work they can, without serious loss of time, change their preparatory work to suit. We would suggest to such students that the A.B. 1 course is probably the best course to select for general culture, from which, as a basis, almost any line of further study can well "take off." This is the classical course and it has been the college course of many of the masters in every vocation in life.

More particularly at this time are we concerned with those who have selected their life work and wish, after college graduation, to take advanced work in preparation for their calling. Medical schools especially, and with increasing emphasis all professional schools, are insisting on certain fundamental courses preparatory to professional study. The following suggestions are offered to entering students:

### **Candidates for Graduate Work in Universities**

The leading universities of our country require detailed information regarding the mentality, industry, and scope and character of the scholastic record of each applicant before admitting him to the graduate school as a candidate for an advanced degree. While universities differ in minor matters as to their requirements, all are looking only for men prepared to do the quality and quantity of work expected of thoroughly equipped students.

The graduate student is expected to pursue work in one major subject and in one or two minors. The minor is ordinar-

ily taken in a field closely related to the major subject, or is perhaps a subdivision of the major. While a student may sometimes be admitted, who took only eighteen semester hours of undergraduate work in the subject that is to be his major in the graduate school, still most leading universities expect the applicant for admission to have completed 36 to 40 semester hours in his principal subject and related fields. If History, for example, is to be his major in the graduate school, the applicant for admission should have completed with high standing a total of at least 36 to 40 semester hours in History and such related fields as Economics, Political Science, Philosophy. If Chemistry is his chosen field for graduate work, the applicant should in like manner have completed at least 36 to 40 semester hours of undergraduate work in Chemistry and related fields such as Physics and Biology.

Candidates for the Master's degree are expected to be able to read French, or German, or both, with facility. Candidates for the degree of Doctor of Philosophy are required to be able to read both German and French, preferably before admission to the graduate school. In the best universities the student is expected to make extensive use of one or both of these languages. A concession is ordinarily made to applicants not qualified in both of these languages at the time of admission to the graduate school, and qualifying examinations may be taken later under professors of languages in the universities.

In certain fields of study a knowledge of other languages is required. In some cases Spanish may be substituted for German, for example, when the student is to take his major in the field of American History.

A student should select not later than the Junior year in college the university at which he prefers to do his graduate work, should study its requirements, and should round out as effectively as possible his preparation for graduate work.

### **The Candidate for the Ministry**

Candidates for the Ministry are urged to take Greek and either Latin or German during their first years, later to take as much of the Sciences as possible, certainly including Biology and Geology, and to major in the Social Science Group or

English. Every candidate should take at least one course each in Philosophy, Psychology, Economics, and Sociology, should certainly include a semester of Ancient History, and some of the Mediaeval and Modern European and English History. Abundance of work in English is of vital importance to a man who will speak in public all his life. A knowledge of the principles of modern education will be of great aid to a pastor.

### **The Candidate for Medicine**

In order to meet the entrance requirements of the best medical schools, a candidate must have two years college work in Chemistry, two years' work in Biology, and one or two years' work in Physics, and a knowledge of a foreign language. A course in the fundamentals of Latin is of great help in understanding medical terminology. Of modern languages, German is the most useful.

B.S. 1 should be chosen with Chemistry or Biology in the Freshman year. By the postponement of Sophomore Bible, two sciences, one of which should be Chemistry, should be taken in the Sophomore year. In his Junior and Senior years, the student majors in the Science group. When he has finished he should have had in Science a minimum of one course in Physics, two in Biology and two courses in Chemistry (general and organic). Some medical schools require Latin, some a reading knowledge of German and French (which calls for the equivalent of two college years in each), and some a reading knowledge of either one. One year in Psychology should be taken and a year in Philosophy is strongly to be recommended. Such vacancies as remain may be filled by the student according to his pleasure. If he knows what medical school he expects to attend he should promptly find out its requirements and arrange to meet them fully.

### **The Candidate for Law**

The A.B. 1 or the A.B. 2 course is strongly recommended. The student should major in the Social Science group and take Accounting. He should pay special attention to English, Economics, History, Psychology, Philosophy, Political Science, and Plane Surveying.

### **The Candidate for Engineering**

Students expecting to enter an engineering school after graduation should take either A.B. 2, or B.S. 1, majoring in Mathematics or Physics in either case. Four years of Mathematics, two of Physics, and one of Chemistry, should be taken. It is recommended that French or German be taken during the Freshman and Sophomore years, and Spanish during the Junior and Senior years. Those students looking forward to Chemical Engineering should take three years of Chemistry. It is desirable that Bible 21, 22 be postponed a year and Chemistry or Physics taken in its place. The following courses are recommended for the Junior and Senior electives: Political Science 31, 32, Economics 21, 22, Business 51, 52, History, Applied Mathematics, Geology, Astronomy, Physics.

### **The Candidate for Educational Work**

The most important thing for any student planning to teach is mastery of the subject fields in which he wishes to give instruction. Information in regard to professional requirements for securing teachers' certificates may be obtained from the office of the Professor of Education.

### **The Candidate for Religious Education**

One of the A.B. courses should be taken. The student should major in the Biblical Department, selecting other courses in Psychology, Philosophy and Education.

### **The Candidate for Business**

The B.S. 2 course is recommended. Students planning for Business will naturally major in the Social Science and Commerce group, with as many subjects as possible chosen from the other groups.

Courses in Economics and Business Administration will, of course, be taken. Modern Languages will be beneficial. The study of English should be emphasized, as the ability to write and speak clearly and concisely is of great importance to the business man.

To secure the broad training which is today demanded of

business men, courses should be taken in History, Philosophy, Political Science, Geology and other subject along the lines of special interests of the student. There is hardly any work in life today which calls for more general information than that of Business. The student will do well to use the opportunity offered to secure this broad, cultural training.

### **Training for Church Work**

Since Davidson is a Church College, and since by past experience we know that aside from those of its graduates who enter the Ministry a large majority become deeply interested in the Church and its work, we suggest to all who are not going to a Theological Seminary the wisdom of taking the courses in Church History and Christian Evidences and Religious Education. To any layman who desires to be active in Church work—and all should be—these courses will prove most helpful. The student has in these courses an unusual chance to enlarge greatly his usefulness in Christian service and to become a much wiser leader in the Church. A Church member who knows the history of the Church is more apt to be conservative, and one who is familiar with the evidences of Christianity will be in a position to do much more effective Christian work.

The President or any professor is glad of an opportunity to counsel with a student on the subject of his course or life work.

### **Summer Session**

A summer session of the College is conducted, offering a wide range of courses for college students, teachers and high school graduates who are deficient in credit for college entrance or who wish to secure advance standing. A bulletin of the summer session can be obtained by writing to the Registrar or to Prof. F. K. Fleagle, Director. The 1936 summer session will be held from June 8 to July 17.

# REQUIREMENTS FOR GRADUATION

To receive a Bachelor's Degree from the College a student must have been in residence for two sessions, one of which must be the Senior session.

A minimum of 130 semester hours is required for graduation, and, furthermore, a minimum of 140 "points," in accordance with the following table:

A.—Three points for each semester hour credit.

B.—Two points for each semester hour credit.

C.—One point for each semester hour credit.

D.—No points allowed.

No points are allowed for passing grades earned by re-examination.

All students are required to take a basic course as here outlined:

English 11, 12&21, 22---12 hours

Bible 11, 12 & 21, 22---12 hours

Mathematics 11, 12----- 6 hours

Foreign Language-----12 hours (For A.B. this must be Greek or Latin)

Laboratory Science----- 8 hours (Biology, Physics, Chemistry)

\*R.O.T.C. 11, 12&21, 22-- 6 hours

In addition to the basic courses students must meet the following requirements:

For A.B. 1—12 hours Greek or Latin, to complete a minimum of 12 hours in each language.

For A.B. 2—12 hours of modern language.

For B.S. 1—16 hours of laboratory science. (Biology, Chemistry, Physics.)

For B.S. 2— 6 hours of History 11, 12 and 6 hours of either Economics 21, 22 or Geography 21, 22.

## Requirements for Bachelor of Arts Degree

*(Figures refer to semester hours of credit. A laboratory period of not less than two hours counts as one recitation hour.)*

\*The following prospective students may be excused from R. O. T. C. upon request: Those whose parents file a written request to that effect with the Registrar before the opening of the College in September; those who are physically disqualified; those who have had two years of military training under government supervision. In no case can a request be considered if it is made later than ten days after the opening of the College. When a student once enters upon the R. O. T. C. course, it is required that he shall complete successfully the first two years before he can graduate from the College. Those Freshmen and Sophomores who are excused from this course are required to take a course in Physical Education.

## FRESHMAN CLASS

| A.B. 1                 |    | A.B. 2                 |    |
|------------------------|----|------------------------|----|

| Elective            | 6-8      | Economics 21, 22    | 6        |
| *R. O. T. C. 21, 22 | 3        | Geography 21, 22    |          |
|                     |          | *R. O. T. C. 21, 22 | 3        |
| Total               | 35 to 37 | Total               | 33 to 35 |

\*See note on page 33.

If a student has had no Latin before entrance or an amount insufficient in preparation for Latin 11, 12, he may begin Latin in College provided a sufficient number apply for the course.

If a student has had no Greek before entrance or an amount insufficient in preparation for Greek 21, 22, he may begin Greek 11, 12 in College.

If a student presents two units in either French, German or Spanish, he will either take Course 21, 22 in the language in which he offers the two units, or take Course 11, 12 in one of the other languages.

Languages begun in the Freshman year must be continued through the Sophomore year. If Course 11, 12 in a foreign language is taken in College, credit will be given for it only when Course 21, 22 is completed. If a foreign language is elected after all catalogue requirements in language are satisfied, Course 11, 12 will be credited. No student, however, will be allowed to receive credit for more than two 11, 12 courses in language.

If a student wishes to advance earlier in his Science work he may postpone Bible 21, 22 until his Junior year and elect in his Sophomore year a laboratory course in Science.

### **Junior and Senior Requirements**

The candidate for a degree shall major in one of the three groups to the extent of not less than thirty semester hours, at least eighteen semester hours of which shall be in some one subject. Further, at least six semester hours not counted in the required courses shall be taken outside the group in which the student majors. The remainder of the 130 required semester hours may be elected at will.

A course taken in the Freshman year shall not be allowed to count as part of a student's major.

A student majoring in the Language group must major in one of the languages taken in his Freshman or Sophomore year.

## Groups of the Junior and Senior Subjects

### Language and Literature

English  
French  
German  
Greek  
Italian  
Latin  
Spanish

### Social Science and Commerce

Bible  
Business  
Economics  
Education  
Fine Arts  
Geography  
History  
Music  
Philosophy  
Political Science  
Psychology  
Sociology

### Natural Science and Mathematics

Applied Mathematics  
Astronomy  
Biology  
Chemistry  
Geology  
Mathematics  
Physics

The Advanced Course in R. O. T. C. (credit six hours per session) is not included in any group but instructors in History, Political Science or Psychology may designate Advanced R. O. T. C. as a closely related subject for selection by a student majoring in either of the three.

## Additional Graduation Requirements

No student will be considered as a candidate for graduation at any Commencement unless by the closing day of the Spring recess of his Senior year he has removed all conditions with the exception of those he is at that time seeking to remove by taking the course or courses in question over in class.

### General Requirements in the Use of English

Students whose oral or written English is at any time unsatisfactory to one or more professors are regarded as conditioned in the use of English. When a student is thus conditioned he is required to take each test given thereafter by the English Department for such conditioned students until he makes a satisfactory grade. When a student has removed his condition in the use of English he may be conditioned thereafter as often as his speech or writing becomes unsatisfactory to one or more professors. No student whose use of English is unsatisfactory will be graduated from the College until he has removed each and every condition of the kind described in this paragraph.

## Selection of Courses

By April 15th each Freshman, Sophomore, and Junior must, in consultation with the Registrar, select and report the courses

he is to take the subsequent session. After this date a fee of \$2.50 will be charged for such arrangement of courses. No changes can be made in the list after September 1st except by permission of the Faculty Committee and on payment of \$1.00 for each change. When, in the opinion of the Committee, any course has a full enrollment, no more may be admitted.

### **Credits for Summer Work**

Any student desiring to take summer courses and to receive credit therefor toward graduation must first have the approval of the professor in whose department he wishes to receive credit.

Such courses must be of college grade taken in a summer school conducted by an institution of at least equal rank with Davidson College, and only such credit will be given as would be allowed toward graduation by the institution conducting the summer school. The student must present from the office of the Registrar of the institution in question a statement of the courses taken and their value toward graduation.

### **Group Honors**

**GROUP HONORS:** Those students who do all the work of one of the courses (A.B. 1, A.B. 2, B.S. 1, B.S. 2) and special work in one of the groups shall be graduated with high honors, or honors in the group of their concentration. Honors students shall in each semester of their Junior and Senior years carry nine hours of regular class work besides their special honors work.

**PURPOSE OF GROUP HONORS:** The purpose of Group Honors is to arouse interest in a higher grade of intellectual achievement; to develop on the part of the student of initiative the power of independent investigation and critical and constructive scholarship; to offer to him the opportunity to pursue his chosen study as rapidly as his talents permit, and to deal with the content of a field of learning rather than with courses.

**GROUPS:** Subject to the approval of the professors concerned, the following groups may be open to students who are candidates for group honors.

- GROUP I: Greek, Latin and Ancient History.  
GROUP II: Modern Language.  
GROUP III: English.  
GROUP IV: Mathematics, Physics, Astronomy.  
GROUP V: Natural Sciences other than Physics.  
GROUP VI: History, Economics, Government, Business Administration.  
GROUP VII: Philosophy, Psychology, Education.  
GROUP VIII: Bible, Religious Education.

CONDITIONS: It shall be left to the professors in a subject whether honors shall be offered in that subject. Any student who during his Freshman year has averaged B or better and B+ or better during his Sophomore year up to and including the mid-semester grades of the second semester, may apply to the Dean of the Faculty for permission to be a candidate for an honors group course, specifying in detail the special work he wishes to pursue. His application shall be accompanied by the recommendation of the professors of the group in which he is to major. In order to continue an honors course, the student must maintain an average of B+ in non-honors classes and must have completed all the work of the first three years before entering upon his Senior year.

In case the professor in any subject decides that a student has not sufficient ground-work in the subject to undertake in his Junior year the work of the honors course, he may be assigned, by the professor in his chosen department, the proper work in the regular courses of his Junior year and begin honors work in that subject in his Senior year. It is understood that he must maintain an average of B+ in his Junior work to be eligible to take this course.

SUPERVISION: The student who has been admitted to honors courses shall be particularly under the oversight and direction of the professor in charge of the subject in which he does his major work, who, with the professors of the other subjects in the group in which the student is pursuing work, shall have charge of and be responsible for the student's entire program of studies. The professor shall hold frequent conferences with the student and require such written reports or papers as he

wills, which report or papers (and theses, if required) shall be kept on file for inspection by the professors of the group.

**EXAMINATIONS:** The professors of the group shall subject the student to semester examinations of a general type to determine whether he is maintaining an honors standard. During the last month of his Senior year the student must stand comprehensive oral and written examinations on the entire field of his major subject. The oral examinations shall be conducted by the professor in charge, assisted by some other professor in the group in which the student's major work lies, or, in case there is no such other professor, he shall be assisted by the professor in the most closely related subject or by a professor of the same subject in some other institution. The professor in charge and the other professors in the group shall review and grade the work of the student and recommend him for such honors as they find he has earned.

### **Preparation for Advanced Work**

The man who proposes to give his life to some form of professional work should in his preparation bear two things in mind. First, that he needs a completed college course and degree before he undertakes the work of his professional school. If he is to enter the field of the ministry, teaching, engineering, medicine or commercial scientific work, this preparation is practically demanded of him by the Seminaries and Universities. Second, that his college course should include every subject stated as a prerequisite by the University he is to attend, and as many others as will bear directly on his future studies. Here many make mistakes; they leave out subjects essential to proper preparation for their advanced study and take many not essential. Especially is this true of some who propose to enter Medical Schools, Seminaries, or Graduate Schools in which higher degrees are to be sought.

The new student and his parent are urged to seek expert advice in this matter before the College course is begun. The College authorities attempt to keep informed of the demands of the graduate and professional institutions and will gladly give advice.

The Medical Schools especially are rigid in their require-

ments of the content of the College course and of high standing in the College work. All technical, literary and scientific institutions of advanced instruction are yearly becoming more exacting in these requirements. See page 27 and following, Selection of College Courses.

# COURSES OF INSTRUCTION

## I. Astronomy

ASSOCIATE PROFESSOR FULCHER

### 31, 32. GENERAL ASTRONOMY AND METEOROLOGY.

A descriptive course in Astronomy, dealing with the motions of the celestial bodies, their physical state and properties and the methods of obtaining knowledge of these bodies.

Night classes are held for the study of the planets, the moon and the learning of the principal constellations.

During a part of the second semester, the elements of Meteorology are studied.

*Three recitations a week. Credit six hours. Elective for all upper classmen. May be semestered subject to approval of Professor*

## II. Biblical Instruction and Religious Education

PROFESSOR SENTELLE

PROFESSOR RICHARDS

PROFESSOR FOREMAN

ASSOCIATE PROFESSOR SCHENCK

Courses 11, 12 and 21, 22 constitute a survey course of the entire Bible. Every part of the Bible is either discussed in class or assigned as parallel reading.

### 11, 12. OLD TESTAMENT HISTORY

This course begins with Genesis and ends with the reign of Solomon.

*Three recitations a week. Credit six hours. Required of all Freshmen. Professor Sentelle, Professor Richards, Professor Foreman, Associate Professor Schenck.*

### 21, 22. OLD AND NEW TESTAMENT HISTORY

This course begins with the divided Kingdom, makes a careful study of the period between the Old and New Testaments, and ends with the study of the Acts and Epistles.

*Three recitations a week. Credit six hours. Required of all Sophomores. Professor Sentelle, Professor Foreman, Professor Richards, Associate Professor Schenck.*

## 31, 32. GENERAL CHURCH HISTORY AND GOVERNMENT

First there is a course in general church history, leading up to a study of the Presbyterian churches of the world. This, in turn, is followed by a careful study of the Presbyterian Book of Government in constant comparison with the forms of government of other churches, all the while such attention being given to distinctive doctrines as will enable the student to have an intelligent conception of the Presbyterian and other systems.

*Three recitations a week. Credit six hours. Elective for Juniors and Seniors. Alternates with Philosophy 61, 62. Professor Richards. To be given in 1936-37.*

41. *Old Testament Ideals.* Hebrew religion studied as a historical development, and especially with reference to its contributions to Christianity. Particular attention will be given to the fundamental moral law and to the messages and influence of the prophets.

*Credit three hours. Elective for Juniors and Seniors. Given in 1937-38 the first semester. Professor Foreman.*

42. *The Bible as Literature.* A study of portions of the English Bible from the literary viewpoint. Attention will be paid not only to literary types and structures but to the influence of the Bible on the thought and life of English-speaking people.

*Three recitations a week. Second semester. Credit three hours. Given 1937-38. Professor Foreman.*

## 51. SOURCES OF CHRISTIAN ETHICS

*The Teachings of Jesus.* These will be studied topically, and against their historical background, but always with a view to their present-day application.

*First semester. Credit three hours. Elective for Juniors and Seniors. Given in 1936-37. Professor Foreman.*

52. *The Earliest Christian Writings.* Typical letters of Paul and others are studied, the course being an introduction to the main outlines of Christianity as presented by its first leaders.

*Second semester. Credit three hours. Elective for Juniors and Seniors. Given in 1936-37. Professor Foreman.*

**61. THE PRINCIPLES OF RELIGIOUS EDUCATION**

The fundamental presuppositions and principles of religious education; psychological and social factors conditioning religious growth and development; principles of modern education; functions of the state in religious education; principles of lesson planning and teaching in religious education.

*Three hours a week. First semester. Credit three hours. Elective for Juniors and Seniors. Associate Professor Schenck.*

**62. FUNCTIONS OF THE FAMILY AND CHURCH IN RELIGIOUS EDUCATION**

Religious education in the home; organization, administration, methods, and procedure in the church school; investigation and evaluation of materials.

*Three hours a week. Second semester. Credit three hours. Elective for Juniors and Seniors. Associate Professor Schenck.*

**III. Biology**

PROFESSOR LYON

PROFESSOR PORTER

**11, 12. GENERAL BIOLOGY**

A course in principles of biology covering much the same ground as Biology 21, 22, but is adapted to less mature students and restricted to Freshmen. A special effort is made in the laboratory to train students to rely on their own observations.

*Two hours of class and four hours of laboratory a week. Credit eight hours. Professor Porter.*

**21, 22. PRINCIPLES OF BIOLOGY**

The work of this course is the study in classroom and laboratory of the large questions and fundamental principles of biology. It includes such subjects as the cell, differentiation, division of labor, symmetry, types and physiology of systems and organs, reproduction, and breeding habits of animals, the development of the individual, genetics, classification, habit and response to environment, distribution and migration, the geological history of type races.

*Two recitations and four hours of laboratory a week. Credit eight hours. Elective for upper classmen. Professors Lyon, Porter.*

## 31. INVERTEBRATE ZOOLOGY

The structures, modes of development, life histories, and behavior of invertebrate animals. Although all the major groups of invertebrates are considered, stress is laid on the insects.

*First Semester. Two recitations and four hours of laboratory a week. Credit four hours. Elective for the three upper classes. Professor Lyon. Prerequisite, Biology 11, 12 or 21, 22.*

## 32. VERTEBRATE ZOOLOGY

Laboratory study of the type forms: the dog-fish, fowl, and mammal. Classroom study of all the vertebrate groups with their functions, adaptations, history, and relationships.

*Second semester. Two recitations and four hours of laboratory a week. Credit four hours. Elective for the three upper classes. Professor Lyon. Prerequisite, Biology 31.*

## 41, 42. GENERAL BOTANY

A general introduction to botany. A course dealing with the fundamental physiological processes, morphology, and ecological relationships of plants.

*One recitation and four hours laboratory or field work a week throughout the session. Credit six hours. Elective for upper classmen. Professor Porter.*

## 51. BACTERIOLOGY

A survey course in the fundamental facts of bacteriology and its hygienic application. Pathogenic forms, bacteriological technique and certain specific infectious diseases will be considered in lecture and laboratory.

*Two lectures and two to four laboratory hours a week during the first semester. Credit three hours. Prerequisite Biology 11, 12 or 21, 22. Professor Lyon.*

## 52. PARASITOLOGY

A continuation of 51, but dealing more particularly with the animal parasites related to human disease.

*Two lectures and two to four laboratory hours a week during the second semester. Credit three hours. Prerequisite, Biology 51. Professor Lyon.*

## 61, 62. THEORY OF BIOLOGY

This course is planned to present a general view of the principles of biology for the benefit of students who have no opportunity for the more extended courses. It should be elected only after consultation.

*Two hours a week. First or second semester. Credit two hours. Professor Porter.*

## IV. Business Administration

PROFESSOR WILLIAMS

### 31. MANAGEMENT PRINCIPLES

The extent to which one fundamental body of principles and methods underlies the successful conduct of business has become increasingly evident in recent years. The manner in which these principles are built into a business organization is studied in this course. Procedure is emphasized as well as organization theory. The development of the various departments is shown.

*Three recitations a week during first semester. Credit three hours. Elective for three upper classes.*

### 32. MARKETING PRINCIPLES

A general survey of modern distribution of products. There are certain fundamentals of distribution which should be universally known. It is not enough to produce goods. These should be delivered to the consumer in the most efficient manner possible. The functions of the retailer, wholesaler, mail order house, chain store and department store, as well as the general functions of marketing, are among the topics discussed.

*Three recitations a week during second semester. Credit three hours. Elective for three upper classes.*

### 41. INVESTMENT PRINCIPLES

This course covers the general principles of investment. Topics discussed will include when and how to make investments; classes of securities; tests of a good investment; mathematics of yields and conversions; guarding against fraudulent

offerings; sources of information; the work of the investment banking house.

*Three recitations a week during first semester. Credit three hours.*

#### 42. INSURANCE PRINCIPLES

This course presents the underlying principles upon which all forms of insurance are based. It is a general course which covers the most important types of insurance—life, fire, marine and casualty insurance. It is the aim of the course to develop an understanding and appreciation of their place in the business and personal life of today.

*Three recitations a week during second semester. Credit three hours.*

#### 51, 52. ACCOUNTING

This course aims to formulate and illustrate the basic principles on which accounting is founded. The theory of accounting is given and made real by comprehensive sets of books, thoroughly worked out. It covers the principles, methods and procedure of modern business organization and management by individuals, partnerships and corporations.

*Three recitations a week throughout the year. Credit six hours.*

HISTORY OF COMMERCE AND INDUSTRY. (See under History, page 64).

GENERAL PRINCIPLES OF ECONOMICS. (See under Economics, page 51.)

BUSINESS ORGANIZATION AND FINANCE. (See under Economics, page 51.)

TAXATION AND PUBLIC FINANCE. (See under Economics page 51.)

STATISTICS. (See under Economics, page 52.)

MONEY AND BANKING. (See under Economics, page 51.)

ADVERTISING. (See under Psychology, page 85.)

ECONOMIC GEOGRAPHY. (See under Geography, page 58.)

MATHEMATICS OF INVESTMENTS. (See page 70.)

## V. Chemistry

PROFESSOR ARBUCKLE

ASSOCIATE PROFESSOR THIES

ASSOCIATE PROFESSOR HOWARD

### 11, 12. GENERAL INORGANIC CHEMISTRY

This course takes up the preparation, properties and uses of the principal elements, non-metallic and metallic, and their compounds.

The fundamental principles of inorganic chemistry are studied and discussed in class and in the laboratory.

The main object is to teach the methods of scientific study and to prepare the way for the study of more advanced chemistry, but the practical bearing of the science and its relation to the industries is kept so constantly before the students that they find the course an essential part of a liberal education, even though they may not desire to take up further study of chemistry.

This course is open to B.S. Freshmen who have not studied chemistry in the high school or have not received entrance credit for high school chemistry.

*Three recitations and one laboratory period of two hours each week throughout the year. Credit eight hours. Professor Arbuckle and Associate Professor Thies.*

### 21, 22. GENERAL INORGANIC CHEMISTRY

This course is based on a more advanced college text than the text used in Chemistry 11, 12. Although the subject matter is similar, more attention will be given to the fundamental theories of inorganic chemistry, and in the laboratory many quantitative experiments will be undertaken.

This course will be open to upper classmen who desire to study this science even though they have not studied chemistry before, and to B.S. Freshmen who have received entrance credit for high school chemistry.

*Two recitations and two laboratory periods of two hours each week throughout the year. Credit eight hours. Professor Arbuckle, Associate Professor Thies and Associate Professor Howard.*

### 31. QUALITATIVE CHEMISTRY

The course in qualitative analysis is based on the text of A. A. Noyes. The reactions and the principles underlying analytical processes are carefully taught, the systematic methods for the separation and the identification of basic and acidic constituents, especially in unknown solutions, are worked over thoroughly, and the analysis of alloys and natural minerals is required.

*Two recitations and two laboratory periods of three hours each week. Prerequisite, Chemistry 11, 12 or 21, 22. Associate Professor Thies.*

*First semester. Credit four hours.*

### 32. QUANTITATIVE CHEMISTRY

The course in quantitative analysis deals with important gravimetric and volumetric methods. The training in analytical processes and technique which this course affords will be of great benefit to pre-medical students, and the quantitative methods so often employed in medical work will be studied.

*Second semester. Credit four hours.*

*Two recitations and two laboratory periods of three hours each week. Prerequisite, Chemistry 11, 12 or 21, 22. Associate Professor Thies.*

### 41, 42. ORGANIC CHEMISTRY

This course is introductory to the study of the compounds of carbon, aliphatic and aromatic, and is open to students who have studied Chemistry 11, 12 or 21, 22.

Medical students are advised to take two laboratory periods of two hours each week or one laboratory period of four hours each week.

*Three recitations and one laboratory period of three hours each week throughout the year. Credit eight hours. Prerequisite, Chemistry 11, 12 or 21, 22. Professor Arbuckle, Associate Professor Howard.*

### 51. ADVANCED INORGANIC CHEMISTRY

This course is designed for those students who desire to make chemistry a life work. The class is drilled in the classroom in the leading theories of general inorganic chemistry and in the laboratory the preparation and purification of typical inorganic substances will be undertaken.

*Two recitations and two laboratory periods of three hours each week. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32. Associate Professor Thies.*

*First semester. Credit four hours.*

### 52. PHYSICAL CHEMISTRY

During the spring term an elementary study of physical chemistry will be given. The general properties of matter in the gaseous, the liquid and the solid states, solutions, equilibrium, mass action, and colloids are subjects discussed in class. In the laboratory, studies in ionization, equilibrium, vapor density determinations, and freezing and boiling point methods comprise the principal subjects.

*Second semester. Credit four hours.*

*Two recitations and two laboratory periods of three hours each week. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32. Associate Professor Thies.*

### 61, 62. ADVANCED QUANTITATIVE ANALYSIS

This course is a continuation of Chemistry 32, but the methods chosen are more difficult. Some of the technical methods studied are: alloy analysis, electro-analysis, food and oil analysis, water analysis, iron and steel analysis.

*One recitation and three laboratory periods of three hours each week throughout the year. Credit four to eight hours. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32. Professor Thies.*

### \*71. INDUSTRIAL CHEMISTRY

In this course the processes of the chemical arts and industries are studied. One interesting feature of the course will be the visits to industrial plants in the vicinity.

---

\*Not over two semesters of Chemistry 71, 72, 81 or 82 will be given in any one year.

This course is devoted to the inorganic industries, such as acids, alkalis, chlorine, steel, paints, etc.

*First semester. Credit three hours. Prerequisite, Chemistry 11, 12 or 21, 22. Three recitations each week. Professor Arbuckle.*

**\* 72. INDUSTRIAL CHEMISTRY**

This course is devoted to the organic industries, such as distillation of wood and coal, coal tar, foods, textile bleaching and dyeing, paper and leather.

*Second semester. Credit three hours. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32, 41, 42. Three recitations each week. Professor Arbuckle.*

**\* 81. AGRICULTURAL CHEMISTRY**

For students who are interested in agriculture this course is offered.

The first semester is devoted to the chemistry of soils.

*First semester. Credit three hours. Prerequisite, Chemistry 11, 12 or 21, 22 and Biology 31. Three recitations each week. Professor Arbuckle.*

**\* 82. AGRICULTURAL CHEMISTRY**

The second semester embraces animal and plant breeding and feed and feeding.

*Second semester. Credit three hours. Prerequisite, Chemistry 11, 12 or 21, 22 and 41, 42, Biology 31, 32. Three recitations each week. Professor Arbuckle.*

**† 91, 92. ADVANCED ORGANIC CHEMISTRY**

This course offers advanced organic preparations and synthetic reactions and modern theories in organic chemistry.

*One recitation and three laboratory periods of three hours each week throughout the year. Credit four to eight hours. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32, 41, 42. Associate Professor Howard.*

**† 101, 102. ORGANIC ANALYSIS**

This is a semester course devoted to organic analysis, qualitative and quantitative.

---

\* Not over two semesters of Chemistry 71, 72, 81 or 82 will be given in any one year.

† Both 91, 92 and 101, 102 will not be offered in the same year unless registration warrants it.

*One recitation and three laboratory periods of three hours each week throughout the year. Credit four to eight hours. Prerequisite, Chemistry 11, 12 or 21, 22 and 31, 32, 41, 42. Associate Professor Howard.*

## **VI. Economics**

PROFESSOR CURRIE

PROFESSOR BROWN

### **21, 22. GENERAL ECONOMICS**

This course aims to introduce the student to the study of economics. More specifically, it gives a broad view of all the devices and arrangements whereby civilized men make a living. Economic society is studied from the viewpoint of both structure and function. Every effort is made to encourage the student in independent thought with regard to the facts and problems of economic life.

*Three hours a week. Credit six hours. Elective for upper classes. Professor Brown.*

### **31, 32. MONEY AND BANKING**

The first part of this course deals with the nature and functions of money and monetary standards. In the latter half of the course, credit and banking are studied with special reference to the banking system of the United States.

*Three hours a week. Credit six hours. Prerequisite, Economics 21, 22. Professor Brown.*

### **41. BUSINESS ORGANIZATION AND FINANCE**

This course is devoted to a study of the various forms and methods of business organization. The latter part of the course deals with the subject of corporate finance.

*Three hours a week during the first semester. Credit three hours. Offered in 1936-37. Prerequisite, Economics 21, 22. Professor Currie.*

### **42. TAXATION AND PUBLIC FINANCE**

This course deals with problems of municipal, state and federal taxation, and the various phases of public finance.

*Three hours a week during the second semester. Credit three hours. Offered in 1936-37. Prerequisite, Economics 21, 22. Professor Currie.*

### 51. STATISTICS

This course is designed to train the student in the presentation, interpretation, and use of information in statistical form. Statistical method is presented as an indispensable tool in the study of social sciences.

*Three hours a week during the first semester. Credit three hours. Prerequisite, Mathematics 11, 12. Professor Brown.*

### 52. BUSINESS CYCLES

A study of prosperity and depression, panics, and crises, price changes, rise and fall of physical volume of production, fluctuation in profits, employment and unemployment of labor.

*Three hours a week during the second semester. Credit three hours. Prerequisites, Economics 21, 22. Professor Brown.*

### 61. TRANSPORTATION

A study of transportation in the United States, with special reference to historical development, problems of rate making, and government regulation.

*Three hours a week during the first semester. Credit three hours. Prerequisite, Economics 21, 22. Professor Brown.*

### 62. LABOR PROBLEMS

A study of the attitudes of the laboring classes, labor organizations, legislation in behalf of labor, and related topics.

*Three hours a week during the second semester. Credit three hours. Prerequisite, Economics 21, 22. Professor Brown.*

## VII. English

PROFESSOR SHEWMAKE

PROFESSOR ERWIN

PROFESSOR LILLY

ASSOCIATE PROFESSOR CUMMING

### 11, 12. ENGLISH COMPOSITION

This course includes a study of the principles of English

composition, the analysis of representative prose works, and the writing of papers of various kinds.

*Three hours a week. Credit six hours. Required of all Freshmen. Professor Shewmake, Professor Erwin, Professor Lilly, Associate Professor Cumming.*

## 21, 22. A SURVEY OF ENGLISH LITERATURE

Attention is paid to some of the most important works of English writers from Anglo-Saxon times to the present day. The reading of several hundred pages of poetry and prose is accompanied by the study of biographical and critical sketches of authors and by lectures on the history of English literature.

*Three hours a week. Credit six hours. Required of all Sophomores. Professor Shewmake, Professor Erwin, Professor Lilly, Associate Professor Cumming.*

## 31. THE ELIZABETHAN DRAMA

Ten plays of Shakespeare are studied in class, and several others are read as parallel. A general survey is made of Shakespeare's predecessors and contemporaries.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Erwin.*

## 32. TENNYSON AND BROWNING

This course is a study of Tennyson and Browning as poets and as exponents of nineteenth century thought.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Erwin.*

## 41. NINETEENTH CENTURY AMERICAN LITERATURE

This course is devoted chiefly to the study of Poe, Hawthorne and Emerson.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37 Professor Shewmake.*

## 42. TWENTIETH CENTURY BRITISH AND AMERICAN POETRY

Among the poets studied are Robert Bridges, John Masefield, Alfred Noyes, Edwin Arlington Robinson, Robert Frost, and Carl Sandburg.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Professor Shewmake.*

## 51. ADVANCED COMPOSITION

A general study of English prose style, with special reference to exposition and journalistic forms. A large amount of written work is required.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Professor Erwin.*

## 52. ADVANCED COMPOSITION

Study of the short story and the principles of poetry. Some attention is paid to the structure of the one-act play. A large amount of written work is required.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Professor Erwin.*

## 61. MILTON AND WORDSWORTH

The entire term is devoted to the poetry of Milton and of Wordsworth.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Shewmake.*

## 62. THE ENGLISH LANGUAGE

The history of the English language and the leading principles of English usage in America are studied.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Shewmake.*

## 71. ENGLISH PROSE OF THE EIGHTEENTH CENTURY

The attention of the class is directed to representative selec

tions from Defoe, Swift, Addison, Steele, Berkeley, Richardson, Fielding, Hume, Goldsmith, Walpole, Sterne, Gibbon, Burke, Boswell and other writers of the period.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Professor Lilly.*

## 72. THE POETRY AND PROSE OF THE ROMANTIC PERIOD

A study is made of Coleridge, Moore, Scott, Byron, Shelley, Keats, Landor, Hazlitt, DeQuincey, and Hood.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Professor Lilly.*

## 81. THE CHIEF CONTEMPORARY DRAMATISTS

Plays from the recent drama of England, Ireland, America, Germany, France, Belgium, Norway, Sweden, and Russia are studied in translation when necessary. Special attention is given to Pinero, Jones, Galsworthy, Moody, Hauptmann, Brieux, Shaw, Maeterlinck, and Chekhov, and to the modern Celtic Renaissance.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Lilly.*

## 82. SPENSER AND MARLOWE

Representative selections from the works of Spenser and Marlowe are studied in their relation to the English Renaissance.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Professor Lilly.*

## 91. THE ENGLISH NOVEL TO HARDY

A survey and critical examination of the principal types of English prose fiction from its beginnings to Thomas Hardy. The course of study includes such typical novels as Pamela, Tom Jones, Evelina, Pride and Prejudice, Pendennis, Jane

Eyre, Barchester Towers, Adam Bede, and Far From the Mad-ding Crowd.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Associate Professor Cumming.*

## 92. THE CONTEMPORARY ENGLISH NOVEL

A study of tendencies in the novel during the last fifty years. Specific questions are raised to be answered by individual study and report, involving independent investigation of literary problems on the part of the members of the class.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1937-38. Assistant Professor Cumming.*

## 101. THE EUROPEAN NOVEL

The works of such continental novelists as Gogol, Turgeniev, Tolstoi, Dostoievski, Sudermann, Balzac, Flaubert and Hamsun are studied.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Associate Professor Cumming.*

## 102. VICTORIAN LITERATURE

This course includes a study of Victorian prose and poetry exclusive of Tennyson and Browning.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. To be given in 1936-37. Associate Professor Cumming.*

# VIII. Fine Arts

## PROFESSOR HARDING

### HISTORY AND APPRECIATION OF ART

31, 32. This course includes a study of the essential periods in the history of art with a view to interesting the student in the appreciation of art as at once cultural and utilitarian in quality. Typical examples of each period are presented for analysis and

criticism in text-books and in formal lecture by the instructor. Stress is laid upon the value of art in education both as an important factor in interpreting the intellectual growth, changing ideals, and dominating aspirations of each age and also as a vital influence in moulding character and in refining the taste and the attitudes of the individual and of society.

*Three hours a week. Credit six hours.*

## IX. French Language and Literature

PROFESSOR WATTS

ASSOCIATE PROFESSOR GOLDIERE

ASSISTANT PROFESSOR BAILEY

### ELEMENTARY FRENCH

11, 12. A course for beginners. Pronunciation. Elements of grammar with written and oral exercises. Reading, writing, and speaking simple French. College credit is given only when Course 21, 22 has been completed. After all language requirements have been met it will be given college credit.

*Three hours a week. Credit six hours. Professor Watts, Associate Professor Goldiere.*

21, 22. Reading of modern texts, review of grammar composition and conversation. This course is open to those who have completed Course 11, 12 and to students who present two units of high school French.

*Three hours a week. Credit six hours. Professor Watts, Associate Professor Goldiere, Assistant Professor Bailey.*

### INTERMEDIATE FRENCH

31, 32. Reading of more difficult texts, advanced composition, conversation.

*Three hours a week. Credit six hours. Prerequisite, French 21, 22 or its equivalent. Professor Watts, Associate Professor Goldiere, Assistant Professor Bailey.*

41, 42. *Introduction to French Literature.* Reading of representative French authors from the Middle Ages to the present time.

*Three hours a week. Credit six hours. Given 1936-37. Prerequisite, French 31,32. Professor Watts, Assistant Professor Bailey.*

#### ADVANCED FRENCH

51, 52. *French Literature of the Nineteenth Century.* A study of the literary movements of the nineteenth century as shown in poetry, drama, and fiction.

*Three hours a week. Credit three hours per semester. Given 1937-38. Professor Watts.*

61, 62. *French Dramatic Literature.* Study of the development of dramatic literature in France from the Classic Period to the present. Lectures, reading and reports.

*Three hours a week. Credit three hours per semester. Given 1936-37. Professor Watts.*

71. *Advanced Composition and Conversation.* This course is conducted in French. Open to students who have obtained a grade of A or B in Course 31, 32 or who have passed in more advanced courses.

*Three hours per week, first semester. Credit three hours. Given 1936-37. Professsor Watts.*

72. *Materials and Methods for Teaching French.* Practical phonetics, advanced syntax, teaching methods, conversation.

*Three hours a week, second semester. Credit three hours. Given 1936-37. Required of all students majoring in French who expect recommendation to teach the language. Professor Watts.*

### X. Geography

#### PROFESSOR PORTER

##### 21. PRINCIPLES OF GEOGRAPHY

A study of the earth as man's environment and of the human response to this environment. A basic course in modern geography.

*Three hours a week. First semester. Credit three hours. Elective for upper classmen.*

##### 22. ECONOMIC GEOGRAPHY

A study of the geography of the production, distribution

and transportation of the major products of man's activities.

*Three hours a week. Second semester. Credit three hours. Elective for upper classmen.*

### 31. THE GEOGRAPHY OF NORTH AMERICA

*Three hours a week, first semester. Three hours credit. Elective for Juniors and Seniors.*

### 32. GEOGRAPHY

Depending on circumstances, particularly the option of the class, this course may consist of Southern Lands, Europe, or the Orient.

*Three hours a week, second semester. Three hours credit. Elective for Juniors and Seniors.*

## XI. Geology

PROFESSOR PORTER

### 31. PHYSIOGRAPHY

A course in physical geology; a study of earth forms and the forces which have produced them.

*Three recitations each week during the first semester. Credit three hours. Elective for upper classmen.*

### 32. HISTORICAL GEOLOGY

A detailed study of the eras of earth history. The laboratory work includes the study of type rocks and fossils.

*Three recitations each week during the second semester. Credit three hours. Prerequisite, 31.*

## XII. German Language and Literature

PROFESSOR VOWLES

### 11, 12. ELEMENTARY GERMAN

Beginners' course for students who present less than two units of entrance credits in German. This course carries no credit in the case of Freshmen and Sophomores, unless in addition Course 21, 22 is completed. It may, however, be taken as an elective course by upper classmen who have met their degree

requirements in other foreign languages, in which case credit is given for 11, 12, even though not followed by Course 21, 22.

*Three hours a week. Credit six hours.*

#### 21, 22. INTERMEDIATE GERMAN

This course is intended for students who have completed two units of German in high school or German 11, 12. It includes a rapid review of the fundamentals and the reading of texts of moderate difficulty. Students of unusual ability are offered the opportunity of reading independently, covering more ground than the average student and following the lines of their special interests.

*Three hours a week. Credit six hours.*

#### 31, 32. ADVANCED GERMAN

The Classical Period: Selected readings from Lessing, Goethe and Schiller.

*Three hours a week. Credit six hours. Not offered every year.*

#### 41, 42. SCIENTIFIC GERMAN

Reading of treatises on chemistry, biology, physics, medicine and other subjects. This course is intended to equip students with the reading knowledge required by graduate and professional schools.

*Three hours a week. Credit six hours. Open to those who have completed German 21, 22.*

#### 51, 52. CONTEMPORARY LITERATURE

This course should be elected only by students who have completed at least two years of college German with high grades, and have demonstrated their ability to read rapidly and easily. Within certain limits, students taking this course work independently, following the dictates of their own tastes.

*Three hours a week. Credit six hours.*

#### 61, 62. CONTEMPORARY LITERATURE

This course alternates with German 51, 52.

*Three hours a week. Credit six hours.*

### XIII. Greek Language and Literature

PROFESSOR HARDING

PROFESSOR BAILEY

#### 11, 12. BEGINNER'S GREEK

In the first semester the elements of the language are studied, as prescribed in a first Greek book, with thorough drill in forms and syntax. In the second semester this work is continued and Book 1 of Xenophon's *Anabasis* is read. Classic Myths are assigned as a collateral study. This course is intended for students who have not studied Greek, but who wish to take the A.B. degree.

*Three recitations a week. Credit six hours. If taken by other than Freshmen, additional work required.*

#### 21. XENOPHON

A page or more of Xenophon's *Anabasis*, *Cyropaedia* or *Hellenica* is read daily with explanations of the constructions found in the text. Correct and intelligent pronunciation of the Greek text is insisted upon. The work in the first semester includes also the grammar. This latter part of the course is largely a review of work covered in Beginners' Greek, *i. e.*, a study of the forms. Through the use of word-lists, special attention is given to acquiring a vocabulary. Primer of Greek History. There are monthly written reviews on the grammar and text.

#### 22. LYSIAS

In the second semester the Attic orator Lysias is read. Study of grammar is continued, syntax now occupying the attention of the class. A mastery both of the principles of syntax and of the illustrative Greek examples is expected. Greek composition also is required. Special study is made of Greek derivatives in English. Primer of Old Greek Life.

*Three recitations a week. Credit six hours. Required of students who are candidates for the A.B. 1 degree, elective for all others.*

## 31. PLATO

In the first semester, the class reads Plato, chiefly the *Apology* and *Crito*. Review of the forms in the grammar, syntax with exercises, Greek derivatives in English, study of Greek life are distinctive features of the course.

*First semester, three recitations a week. Prerequisite, Greek 11, 12 and 21, 22.*

## 32. GREEK DRAMA

In the second semester the class reads Euripides and Sophocles, or Euripides and Aeschylus, alternating from year to year as conditions warrant. The course embraces also study of syntax and exercises in Greek composition, the reading of a Greek text as parallel work and a brief survey of the meters of the Greek tragedians.

*Second semester, three recitations a week. Credit six hours. Prerequisite, Greek 31.*

## 41. DEMOSTHENES (OR THUCYDIDES)

This election is open to those who have completed Course 32. Much attention is given to translation as such and to literary form, special effort being made to enable the student to acquire a sympathetic appreciation of the style and spirit of the author read. Parallel reading is assigned. Composition is based on the text in hand. Syntax is continued, in part a review of earlier work, in part lectures by the professor.

*First semester, three hours a week.*

## 42. GREEK DRAMA

In the second term, either Sophocles and Euripides, or Sophocles and Aeschylus, followed by Aristophanes, are studied. The course is similar in part to 32. Elements of comparative philology and lectures on Greek synonyms.

If the class so elects, Homer may be substituted for a part of the Greek text in either 41 or 42. Where this is done, Homer's variations from the norm of Attic Greek are carefully noted. The hexameter is treated exhaustively, and made familiar by daily exercises in scansion.

*Second semester, three recitations a week. Credit six hours. Prerequisite, Greek 41.*

## 51, 52. NEW TESTAMENT GREEK

This course has in mind particularly the needs of candidates for the ministry who feel that some acquaintance with the Greek of the New Testament prior to the work taken up in the theological seminary would be of benefit to them.

*Three recitations a week. Credit six hours. Prerequisite, Greek 11, 12 and 21, 22.*

## 61, 62, GREEK LITERATURE IN ENGLISH TRANSLATION

This course is designed especially for those who have completed the Sophomore year in Greek, but is open as an elective to any Junior or Senior. The prime purpose of the course is to encourage a further study of the masterpieces of the Greeks, and thus lead to a more intimate acquaintance with Greek literature the student who has necessarily in previous years laid the emphasis on mastery of accidence and the syntax of the language. The course embraces both a history of the literature and the literature itself as presented in approved English translations. The various departments of poetry and prose are included, such as Epic poetry (*Iliad and Odyssey*), Lyric poetry, the Drama (Tragedy and Comedy), History, Oratory, Philosophy, Alexandrian and Graeco-Roman Literature.

*Three recitations a week. Credit six hours. Elective for Juniors and Seniors. Offered only if there is sufficient demand and the professor has time for it.*

## 71, 72. GREEK OF SCIENTIFIC TERMINOLOGY

This course, one or two semesters, two hours a week as conditions warrant, is offered for students of the natural sciences, especially for students preparing for medicine who have had no Greek but who wish an introduction to the language and a sufficient knowledge of the same to make an intelligent use of scientific dictionaries. The larger part of the course is devoted to acquiring the meaning of the more usual Greek terms, including single words and the prefixes and suffixes found in compounds. The course has the cordial endorsement of the several scientific departments of the College.

## XIV. History

PROFESSOR LINGLE

ASSOCIATE PROFESSOR JOHNSTON

### 11, 12. HISTORY OF EUROPEAN AND AMERICAN COMMERCE AND INDUSTRY

This course will include a study of the organization and development of European and American commerce and industry from the breaking up of the Roman Empire down to the present. One semester will be devoted to European and one to American commerce and industry.

*Three hours a week. Credit six hours. Required of Freshmen in B.S. 2. Associate Professor Johnston, Professor Lingle.*

### 21. THE ANCIENT WORLD

A survey course in the history of the ancient world, covering the pre-Greek, the Greek, and the Roman period to the time of Constantine, 330 A.D. Textbook, lectures, and reports.

*Three hours a week, first semester. Credit three semester hours. Elective for upper classmen. Professor Lingle.*

### 22. THE MEDIEVAL WORLD

This course deals with the period from Constantine to the Renaissance inclusive. The break-up of the Roman Empire, the wanderings of the peoples, the papacy, feudalism, the rise of Islam, beginnings of modern states, travel and discovery, social, cultural, religious, and intellectual life constitute topics for textbook, lectures, and reports.

*Three hours a week, second semester. Credit three semester hours. Elective for upper classmen. Professor Lingle.*

### 31, 32. ENGLISH HISTORY, COLONIAL EXPANSION OF EUROPE AND MODERN IMPERIALISM

The political and constitutional development of England and the British Empire are traced, and social, religious and industrial movements are studied. The course includes a study of

the Colonial Expansion of Europe and the trends of Modern Imperialism.

*Three hours a week for each semester. Credit three hours each semester. Elective for upper classmen. Associate Professor Johnston.*

#### 41. MODERN EUROPE, 1500 TO 1789

The late Renaissance, the Reformation, the Counter-Reformation, the religious wars, the rise of great powers, dynastic rivalries, colonial expansion, enlightened despotism, together with the intellectual, cultural, and social life of the peoples will be traced. Library readings, reports, and lectures.

*Three hours a week, first semester. Credit three semester hours. Elective for upper classmen. Professor Lingle.*

#### 42. CONTEMPORARY EUROPE, 1789 TO 1937.

The French Revolution and Napoleonic wars, political reaction, the rise of industry, the growth of nationalism and progress of democracy, the unification of Germany and Italy, the formation of alliances, the Great War, the progress of the sciences, the economic, social, and intellectual life of the 19th and 20th centuries are traced in library readings, reports, and lectures.

*Three hours a week, second semester. Credit three semester hours. Elective for upper classmen. Professor Lingle.*

#### 51, 52. HISTORY OF THE UNITED STATES OF AMERICA

The subject is studied intensively under the following divisions: The Colonial Period and the Revolution, the Constitution and the Federal System, the Middle Period (the Tariff, Expansion to the West, Democracy and Slavery), the Civil War and Reconstruction, and the New Nationalism. Frequent papers on assigned topics are required.

*Three hours a week for each semester. Credit three hours each semester. Elective for upper classmen. Associate Professor Johnston.*

#### 61, 62. SOUTHERN HISTORY

The course is an intensive study of the history of the South from Colonial times to the present and consists of lectures,

readings, and reports. Extensive library work and several essays are required. For advanced students only.

*Three hours a week. Credit three hours each semester. Associate Professor Johnston.*

#### 71. EUROPE AND THE WORLD SINCE 1914

Readings, reports, and lectures. For advanced students only.

*Three hours a week, first semester. Credit three semester hours. Given in 1935-36. Professor Lingle.*

#### 72. THE RENAISSANCE

A study of the intellectual, cultural, and political awakening in Italy and other lands in the 14th and 15th centuries. For advanced students only. Readings, reports, and lectures.

*Three hours a week, second semester. Credit three semester hours. Given in 1935-36. Professor Lingle.*

#### 81. GREAT EPOCHS IN FRENCH HISTORY

The Renaissance, the Age of Louis XIV, the Revolution, the Second Empire, France Today. Readings, reports and lectures. For advanced students only.

*Three hours a week, first semester. Credit three semester hours. Given 1936-37. Professor Lingle.*

#### 82. GREEK HISTORY

Civilization in the Periclean and the Hellenistic Age. Readings, reports and lectures. For advanced students only.

*Three hours a week, second semester. Credit three semester hours. Given 1936-37. Professor Lingle.*

## XV. Latin Language and Literature

PROFESSOR BEATY

### 11, 12. CICERO, VERGIL, GRAMMAR, COMPOSITION

This course admits to Latin 21, 22, and is open to students offering two units of Latin. To enter this class the student must have taken at least two years of high school Latin, preferably in the last two years of his high school course. A beginner's course in Latin will be offered in case of sufficient demand.

*Three recitations a week. Credit six hours. To secure credit towards a degree for this course, Course 21, 22 must be taken also.*

### 21, 22. CICERO, LIVY

Cicero's *De Senectute*, Livy, Ovid, Selections. Drill in grammar through the case constructions. Weekly exercises in Latin prose composition.

*Three recitations a week. Credit six hours.*

### 31, 32. CICERO, HORACE

Reading of Cicero's *Fourth Verrine*, Vergil's *Bucolics*, Horace's *Odes*, Book 1, *Satires*, Book 1, and *Epistles*, Book 1. Continued study of Latin grammar. Exercises in prose composition. Study of Roman history. Special attention is paid to the meters of Horace.

*Three recitations a week. Credit six hours.*

### 41, 42. PLAUTUS, CICERO, TACITUS, TERENCE

Reading of Plautus' *Menaechmi* and *Pseudolus*, Vergil's *Georgics*, Cicero's *Selected Letters*, Tacitus' *Germania* and *Agricola*, Terence's *Phormio*. Special attention is paid to the meters of Plautus and Terence. Advanced exercises in Latin prose composition. History of Roman literature.

*Three recitations a week. Credit six hours. Elective for Juniors.*

## 51, 52. JUVENAL, TERENCE, PLAUTUS, TACITUS, PLINY

Reading of Juvenal, Terence's *Andria* and *Adelphi*, Plautus' *Mostellaria* and *Stichus*, selections from the Elegiac Poets, Tacitus' *Annals*. A part of the course is devoted to the study of inscriptions. Advanced prose composition.

*Three recitations a week. Credit six hours. Elective for Seniors.*

## 62. TEACHER'S COURSE IN LATIN

In addition to the above courses a course is given on methods and material in the teaching of high school Latin. This is a one-semester course and as a rule is open only to students in Latin 41, 42 or 51, 52.

*Three recitations a week. Credit three hours. Second semester.*

**XVI. Mathematics**

PROFESSOR WOOD

ASSOCIATE PROFESSOR MEBANE

ASSOCIATE PROFESSOR HOWARD

ASSISTANT PROFESSOR KIMBROUGH

ASSISTANT PROFESSOR MCGAVOCK

## 11. ADVANCED ALGEBRA

The subject begins with a discussion of the roots of the quadratic equation.

*Three hours a week. First semester. Credit three hours. Required of all Freshmen. Professor Wood, Associate Professor Mebane, Associate Professor Howard, Assistant Professor Kimbrough.*

## 12. PLANE TRIGONOMETRY

*Three hours a week. Second semester. Credit three hours. Required of all Freshmen.. Professor Wood, Associate Professor Mebane, Associate Professor Howard, Assistant Professor Kimbrough.*

**21. PLANE ANALYTICAL GEOMETRY AND CALCULUS**

This course covers the fundamentals of Plane and Analytical Geometry and an introduction to the differential Calculus.

*Three hours a week. First semester. Credit three hours. Prerequisite Mathematics 11 and 12. Associate Professor Mebane, Assistant Professor Kimbrough.*

**22. CALCULUS AND PLANE ANALYTICAL GEOMETRY**

An introductory course in Differential and Integral Calculus with applications to Plane Analytical Geometry.

*Three hours a week. Second semester. Credit three hours. Prerequisite Mathematics 21. Associate Professor Mebane, Assistant Professor Kimbrough.*

**31. DIFFERENTIAL CALCULUS**

*Three hours a week. First Semester. Credit three hours. Prerequisite Mathematics 22. Assistant Professor Kimbrough.*

**32. INTEGRAL CALCULUS**

*Three hours a week. Second semester. Credit three hours. Prerequisite Mathematics 31. Assistant Professor Kimbrough.*

**34. SOLID GEOMETRY**

*Two hours a week. Second semester. Credit two hours. Elective for Sophomores, Juniors and Seniors. Given only if five or more apply for the course.*

**41. DIFFERENTIAL EQUATIONS**

*Three hours a week. Credit three hours. First semester. Prerequisite Mathematics 32. Associate Professor Mebane.*

**42. SELECTED TOPICS IN MATHEMATICS**

*Three hours a week. Second semester. Credit three hours. Prerequisite Mathematics 41. Associate Professor Mebane.*

**XVII. Applied Mathematics**

PROFESSOR WOOD

**31. PLANE SURVEYING**

The object of this course is to give the student a foundation in plane surveying, such as would fit him for practical work.

Adjustments of instruments, methods of running simple curves and calculating earthwork, are studied. Instruction is given in classroom and field in the use of the compass, transit, level, and minor surveying instruments.

*Three recitations and two hours of field work a week. First semester. Credit four hours. Elective for upperclassmen. Prerequisite Mathematics 11 and 12.*

## 32. MATHEMATICS OF INVESTMENT

This course deals with the mathematical relations of money and time as they arise in problems concerning interest, annuities, capitalization, depreciation and valuation of securities.

*Three recitations a week. Second semester. Credit three hours. Elective for upper classmen. Prerequisite Mathematics 11 and 12.*

## 41. MECHANICAL DRAWING

Orthographic and isometric projections, intersection and development of surfaces, and elements of perspective.

*Two recitations and four hours of drawing room work a week. First semester. Credit four hours. Elective for upper classmen. Prerequisite Mathematics 11 and 12. It is advisable that students be taking Mathematics 21.*

## 42. DESCRIPTIVE GEOMETRY

*Two recitations and four hours of drawing room work a week. Second semester. Credit four hours. Elective for upper classmen. Prerequisite Applied Mathematics 41.*

## 51. APPLIED MECHANICS—STATICS

*Three recitations a week. First semester. Credit three hours. Elective for Juniors and Seniors. Prerequisite Physics 11, 12 or 21, 22 and the student must have had or be taking in the same year Mathematics 31 and 32.*

## 52. APPLIED MECHANICS—KINETICS

*Three recitations a week. Second semester. Credit three hours. Elective for Juniors and Seniors. Prerequisite Applied Mathematics 51.*

## **XVIII. Military Science and Tactics**

### **RESERVE OFFICERS' TRAINING CORPS—SENIOR UNIT**

COLONEL RHETT  
MAJOR COCHRAN  
MAJOR SEIFERT  
SERGEANT BURTON

This organization was established by Congress for the purpose of qualifying selected students at civil educational institutions as Reserve Officers for the military forces of the United States.

The four-year course is divided into two periods. The first period of two years is the basic course, given Freshmen and Sophomores. The completion of the basic course shall, when entered upon by a student, be a prerequisite for his graduation, unless he shall be discharged from the Reserve Officers' Training Corps by the Professor of Military Science and Tactics, with the approval of the President of the College. The second period of two years is the advanced course. This is given Juniors and Seniors who have finished the basic course and who have applied for and been recommended for further training. Students interested in music may take most of their applicatory training in the band, where the credit is equal to that given for tactical training.

The Government furnishes all uniforms and equipment without charge, except shoes. Each student taking this course is required to provide himself with Munson last shoes, russet color. These shoes are corrective of foot defects and allow the feet to develop naturally.

Students who take the advanced course and who satisfy the requirements for attendance at College and at summer camp are paid a commutation of the United States Army rations, covering the period of their Junior and Senior years and the intervening vacations, except the period of summer camp, when they are subsisted and in addition paid at the rate of \$21.00 per month.

An allowance is made towards the purchase of new uniforms for students taking the advanced course. Upon completion of the Junior year, this uniform becomes the personal property of the student. The allowance for uniform amounts to \$36.00, divided into the initial allowance during the Junior year of \$29.00 and the maintenance allowance, during the Senior year, of \$7.00. The amount of cash actually paid the advanced course students is about \$70.00 as a Junior and \$85.00 as a Senior. This is in addition to his uniform allowance, his subsistence and pay while attending camp, and his transportation to and from camp.

Each year upon graduation, students qualifying for commissions, upon the recommendation of the President of the College and the Professor of Military Science and Tactics, will be commissioned as second lieutenants (Reserve) United States Army. Those students who qualify but who are under 21 years of age will receive certifications for appointment from the Adjutant General, United States Army, which will automatically entitle them to be regarded as eligible for appointment upon becoming 21 years of age.

#### R. O. T. C. 11, 12 (*First Year Basic Course*)

For Freshmen. Includes the following subjects: Military Fundamentals; National Defense Act and R. O. T. C.; Orientation; Obligations of Citizenship; Military History and Policy; Current International Situation; Military Discipline, Courtesies and Customs of the Service; Military Sanitation and First Aid; Military Organization; Map Reading; Leadership; Rifle and Rifle Marksmanship.

*One recitation and three hours of field work a week throughout the year. Credit three hours.*

#### R. O. T. C. 21, 22 (*Second Year Basic Course*)

For Sophomores. Includes the following subjects: Military Fundamentals; Military History; Leadership; Automatic Rifle; Characteristics of Infantry Weapons; Combat Training, Musketry; Scouting and Patrolling; Functions of Platoon Scouts;

Combat Principles of the Rifle Squad, and Section in Attack, Defense and Security.

*One recitation and three hours of field work a week throughout the year. Credit three hours.*

R. O. T. C. 3 31, 32 (*First Year Advanced Course*)

For Juniors. Includes the following subjects: Military Fundamentals; Map Reading and Interpretation of Aerial Photographs; Leadership; Instructional Methods; theoretical and practical instruction in the characteristics, powers, limitation and operation of the machine gun, 37 m.m. gun and the 3" Trench Mortar; theory and practice in the care, mechanism and use of the pistol; review of rifle marksmanship; Combat Training; Estimate of the Situation; Combat Orders; Marches, Security, Development for Combat; Offensive Combat, Defensive Combat and Organization of the Ground; Combat Principles of the Rifle Platoon, Machine Gun Platoon and Howitzer Company Squad in Attack, Defense and Security; Field Fortification.

*Two recitations and three hours of field work a week throughout the year. Credit six hours.*

R. O. T. C. 4 41, 42 (*Second Year Advanced Course*)

For Seniors. Includes the following subjects: Military Fundamentals; Military History and Policy; Military Law; Company Administration and Supply; Officers Reserve Corps Regulations; Leadership; Instructional Methods; Tank Operations, characteristics, powers, limitations and functions of the Infantry Tank; Combat Training; Review of Offensive Combat, Organization of the Ground, Combat Orders and Solutions of Problems (Inf.); Combat Principles of the Rifle Company, Machine Gun Company and Howitzer Company Platoon in Attack, Defense and Security; Anti-Aircraft Defense; Defense against Chemical Warfare; Combat Intelligence; Infantry Signal Communications.

*Two recitations and three hours of field work a week throughout the year. Credit six hours.*

## XIX. Music

JAMES CHRISTIAN PFOHL, *Director*

WARREN PERRY BABCOCK, *Assistant*

The work offered by the department of music consists of courses in glee club, orchestra, and concert band. and of private instruction in piano, organ, voice, and all orchestral and band instruments. It is hoped that in the near future courses in music appreciation, theory of music, public school music, and church music can be given.

### 21, 22. GLEE CLUB

This course consists of the study and performance of the best in the way of glee club literature and in the study and discussion of such fundamental factors of the language of music as may be necessary to acquaint the student with an understanding and appreciation of the many forms, styles, and moods of musical literature.

*One hour a week recitation and three hours laboratory, throughout the year. Credit two hours.*

### 31, 32. ORCHESTRA

This course consists of the study and performance of representative examples of orchestral literature, such as the standard overtures, tone poems, symphonies, accompaniments, etc., and in the study and discussion of such fundamental factors of the language of music as may be necessary to acquaint the student with an understanding and appreciation of the many forms, styles, and moods of musical literature.

*One hour a week recitation and three hours laboratory, throughout the year. Credit two hours.*

### 41, 42. CONCERT BAND

This course consists of the study and performance of representative examples of band literature and in the discussion and study of such fundamental factors of the language of music as may be necessary to acquaint the student with an

understanding and appreciation of the many forms, styles, and moods of musical literature.

*One hour a week recitation and three hours laboratory, throughout the year. Credit two hours.*

*Applied Music*—Private or individual instruction is offered in all branches of Applied Music (piano, organ, orchestral and band instruments, voice). It is necessary to charge a special fee for this instruction. Credit may be received for work in Applied Music by taking a sixty minute lesson, practicing a minimum of six hours, and attending the lecture period, given in connection with the organizations, each week. Credit received will be the same as that received for the organization work.

These courses are open to all students who by "try-outs" at the beginning of the year demonstrate sufficient technical training to enable them to conform to the standards set for election of these courses. Students are allowed to carry these courses in addition to their regular schedule, but no student will be allowed to elect more than one of these courses at one time. These courses may be elected in successive years by addition of a, b, or c to the number (*e. g.*, Music 21) since the literature studied covers a cycle of four years. No student may drop these courses after being regularly enrolled, unless application is made during the first ten days of school.

Students who do not wish to take these courses for credit, but who may desire to join one of the above musical organizations, may do so by qualifying before the Director of Music and by pledging faithful attendance and co-operation.

**XX. Philosophy**

PROFESSOR SENTELLE

PROFESSOR FOREMAN

PROFESSOR HOOD

PROFESSOR RICHARDS

*No credit will be given in this department for less than an entire year's work.*

**31, 32. INTRODUCTION TO PHILOSOPHY AND HISTORY OF PHILOSOPHY**

In this course a rapid survey of the whole field is given. Following this the history of philosophic thought is traced from the speculation of the Greeks of the sixth century B.C. through the problems of present-day philosophic thought. Text-books, lectures, discussions, readings from original sources, and reports.

*Three hours a week. Credit six hours. Elective for Juniors and Seniors. Professor Sentelle.*

**41. ETHICS**

An analytical and historical study of ethical systems, of ideals and principles of conduct with a view to their practical application to individual life and citizenship.

*Three hours a week during the first semester. Credit three hours. Elective for Juniors and Seniors. Professor Foreman.*

**42. AESTHETICS**

A study of the creation and appreciation of the beautiful, especially in the fine arts, with the aim of discovering their characteristics and their value for individual and social life.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. Professor Foreman.*

**52. LOGIC AND EPISTEMOLOGY**

This is a general course in logic—deductive and inductive.

As part of the course the class will acquaint themselves with the method of science in its search for truth and its efforts to formulate scientific beliefs. In the latter part of the course special attention is directed to a critical exposition of the theories of knowledge. The course is given especially for students in science.

*Three hours a week during the second semester. Credit three hours. Elective for Juniors and Seniors. Professor Hood.*

## 61, 62. PHILOSOPHY OF RELIGION

The course begins with a general survey of the great religious systems of the world. This serves as a basis for the development of the philosophy of religion. The latter part of the course is directed with special reference to the philosophy of the Christian religion.

*Three hours a week. Credit six hours. Elective for Juniors and Seniors. To be given in 1937-38. Alternates with Bible 31, 32. Professor Richards.*

*Credit will be offered in this department for the course in Political Philosophy, Political Science 62.*

## XXI. Physical Education

DR. J. W. MACCONNELL

ASSISTANT DIRECTOR WHITTLE

The aims and objectives of the Department of Physical Education are fourfold: To enable students to keep themselves physically fit for the demands of college life through exercise and to encourage them to maintain good health during later years through their knowledge of personal hygiene; to offer a medium whereby they may enjoy associations and healthful experiences that are of educational value; to develop aptitude in and wholesome attitude toward such recreational activities as may be carried over into later life; to instruct prospective

teachers in methods of physical training that they may be better equipped for such vocation.

Physical Examinations, conducted by the College physician and by the Professor of Physical Education are required of all students at the beginning of each fall semester. The vital and sensory organs are carefully examined, bodily defects noted and corrective exercises prescribed if advisable, physical measurements taken, typhoid inoculation and small-pox vaccination given in cases requiring such preventive measures, and past diseases are recorded; all such data is placed on individual hygiene charts and kept on file for reference. No student whose examination reveals an impairment of any vital organ or whose general physical condition warrants careful supervision is permitted to engage in athletic activities.

Physiology and Hygiene Lectures are given by the College physician to members of the Freshman Class; these lectures touch upon the structure of the human anatomy as well as upon the function of organs and muscles, but chief emphasis is placed upon personal hygiene in order that these students, just entering upon their four years of college life, may learn to know the principles of health. Attendance is required throughout this series of lectures.

Physical Exercise is required of all students not excused by the College physician. Members of the R. O. T. C. satisfy such requirements by taking military drill and calisthenics; other students may do so by engaging in any of the prescribed activities or by participating in intercollegiate, intramural, inter-company, or inter-fraternity sports.

All Freshmen and Sophomores who do not take R. O. T. C. are required to take such physical exercise and training under the supervision of the Director of Physical Education as the Faculty may prescribe.

A three semester hour course in Physical Education will be given for Juniors and Seniors who wish to prepare for coaching athletics in the public schools.

## XXII. Physics

PROFESSOR J. M. DOUGLAS

ASSOCIATE PROFESSOR FULCHER

### 11, 12. PHYSICS

This course is arranged for Freshmen who elect the B.S. 1 course. It is especially recommended to the student who has in mind medicine as a life work. The subjects under discussion during the first semester are mechanics of solids, liquids and gases, wave motion and sound. During the second semester, heat, electricity, magnetism and light will be studied.

*Two recitations and four hours laboratory each week. Credit eight hours. Associate Professor Fulcher.*

### 21, 22. PHYSICS

This course is similar in content to Physics 11, 12, though more advanced. It is designed as a general cultural course. It will serve as a basis for further work in science. This course is open to all upper classmen.

*Two recitations and four hours laboratory each week. Credit eight hours. Professor Douglas, Associate Professor Fulcher.*

### 31. MAGNETISM, ELECTRICITY

The first semester is devoted to the study of magnetism and electricity.

*Three recitations and three hours of laboratory each week. First semester. Credit four hours. Prerequisite Physics 11, 12 or 21, 22. Professor Douglas.*

### 32. MODERN PHYSICS

The second semester is given to the discussion of modern work in Physics: the electron, the proton, the atomic structure,

spectra, isotopes, radio activity, photo-electricity, quanta, and X-rays.

*Three recitations and three hours laboratory each week. Second semester. Credit four hours. Professor Douglas.*

*Note*—Semester courses 31 and 32 are recommended to all students who have in view the study of medicine or teaching.

#### 41. MECHANICS OF SOLIDS AND FLUIDS

This is an intermediate course in mechanics offered the first semester. Both theory and problems are stressed.

*Three recitations and three hours laboratory each week. First semester. Credit four hours. Associate Professor Fulcher.*

#### 42. HEAT

This is an intermediate course in heat dealing with measurement of temperature, specific heat, expansion, change of state, properties of vapors, theories of heat, kinetic theory of gases, cyclical operations, second law of thermodynamics and heat transfer.

*Three recitations and three hours laboratory each week. Second semester. Credit four hours. Associate Professor Fulcher.*

#### 51, 52. ELECTRICITY—CONTINUOUS CURRENTS

This course takes up continuous currents and their applications, first semester and part of second semester. The theory and application of thermionic tubes will be studied the latter part of the second semester.

*Three recitations and three hours laboratory each week throughout the year. Credit eight hours. Prerequisite Physics 11, 12 or 21, 22. Professor Douglas.*

#### 61, 62. ELECTRICITY—ALTERNATING CURRENTS

The first semester and part of the second semester is given to work in alternating currents, theoretical and practical. The

- American Govt - 3 hrs.  
 - European Govt - 3 hrs.

# COURSES OF INSTRUCTION

83

Supreme Court's interpretation of the Fourteenth Amendment, and the Commerce Clause.

*Three hours per week during the first semester. Credit three hours. Prerequisite, Political Science 31 and 32 or 41 and 42.*

## 52. INTERNATIONAL PUBLIC LAW

An examination of the sources of International Law, the rules regulating the intercourse of states, the making and interpretation of Treaties and the modes of settling international disputes.

*Three hours per week during the second semester. Credit three hours. Prerequisite, Political Science 31 and 32 or 41 and 42.*

## 61. STATE AND LOCAL GOVERNMENT

A study of the governments of State, County, and City divisions in the United States.

*Three hours per week during the first semester. Credit three hours. Offered 1937-38. Prerequisite, Political Science 31 and 32 or 41 and 42.*

## 62. POLITICAL THEORY

An examination of the origin, nature, functions and organizations of states, the various theories that have been formulated relative thereto. Correlated readings.

*Three hours per week during the second semester. Credit three hours. Offered 1937-38. Prerequisite, Political Science 31 and 32 or 41 and 42.*

## XXIV. Psychology and Education

PROFESSOR HOOD

PROFESSOR GWYNN

### 31. GENERAL PSYCHOLOGY

The student is introduced to the facts and principles of mental life, through lectures and class and individual experiments. A survey is made of the various schools of psycholog-

ical thought and investigation. This course should accompany or precede the courses in education.

*Three hours a week first semester. Credit three hours. Elective for Juniors and Seniors; Sophomores by permission. Professor Hood and Professor Gwynn.*

### 32. MENTAL HYGIENE

A study of the factors which contribute to wholesome personality development. Analysis of the underlying causes responsible for failure in human adjustment is undertaken. Emphasis is put upon the positive program of recent years, the purpose of which is to avoid or cure mental and emotional conflict.

The state will give credit for this course on a teacher's certificate. A study of mental hygiene is universally required of those who seek employment in any form of social service.

*Three hours a week second semester. Credit three hours. Elective for Juniors and Seniors; Sophomores by permission. Professor Gwynn.*

### 41. SOCIAL PSYCHOLOGY

A brief survey of the subject of group reaction, with emphasis upon the difference in attitude and response between individual and social behavior. The latter part of the course has special bearing upon the problems which rise in the school.

The state will give credit for this course on a teacher's certificate.

*Three hours a week first semester. Credit three hours. Elective for Juniors and Seniors. Professor Hood.*

### 42. ABNORMAL PSYCHOLOGY

A study of such abnormal mental phenomena as hypnotism, dreams, multiple personality, phobias, insanity, etc.

The state will give credit for this course on a teacher's certificate.

*Three hours a week second semester. Credit three hours. Prerequisite, Psychology 31. Elective for Juniors and Seniors. Professor Hood.*

## 51, 52. EXPERIMENTAL PSYCHOLOGY

A course in the introduction to experimental methods as applied to the study of psychology and education. The first semester is devoted to experiments in general psychology dealing with such fields as sensation, perception, and association. In the second semester emphasis is placed upon experiments in educational psychology. Either or both semesters may be taken in any sequence.

The state will give credit for this course on a teacher's certificate.

*There will be two double periods of laboratory and one hour lecture a week. Credit three hours each semester. Elective for Juniors and Seniors. Professor Hood and Professor Gwynn.*

## 62. PSYCHOLOGY AND BUSINESS RELATIONS

This course is open only to those students who have completed Psychology 1. It is designed to give the student an introduction to the study of salesmanship and advertising and will be divided into two lines of investigation:

*Salesmanship.* The student is taught the application of psychological principles to the problem of selling. Specifically, the following topics are considered: Analysis of the sale, practical and tried methods of securing and selecting prospects, adaptation of methods to different types of buyers, planning and carrying out interviews, the construction of a sales talk, etc.

*Advertising.* The class collects advertising appearing in magazines and newspapers for analysis and criticism. They are taught the bearing of psychology on "ad" writing and are required to produce "copy." Some attention is paid to the methods of determining returns from advertising.

*Three hours a week during the second semester. Credit three hours. Prerequisite, Psychology 31. Professor Hood.*

## 71. EDUCATIONAL PSYCHOLOGY

Consideration of the learning process in the light of experimental psychology. The course deals with man's original nature and how to achieve the modifications in it which the school desires to bring about. This course is required for all those who wish to secure a teacher's certificate.

*Three hours per week first semester. Credit three hours. Professor Gwynn.*

## 72. PROBLEMS OF SECONDARY EDUCATION

The first part of the course deals with the high school pupil, special emphasis being given to the psychological characteristics of the adolescent age. The latter half of the course is devoted to the objectives, the organization, and the curriculum of the American high school. This course is required of all those who wish to secure a teacher's certificate.

*Three hours per week. Second semester. Credit three hours. Professor Gwynn.*

## 81, 82. MODERN METHODS IN HIGH SCHOOL TEACHING

A seminar in the most progressive techniques now applied to the teaching of high school subjects. Special attention to recent experiments in the field—individual investigations and written reports.

This course runs throughout the year, but is so arranged that credit may be had for the work of either semester as a unit.

This course should precede or accompany special courses in Materials and Methods. It is required of all those who wish to secure a teacher's certificate.

*Three hours per week. Professor Gwynn.*

## 91. PRACTICE TEACHING

This course is designed to enable students to meet the requirements for an A-grade teacher's certificate. The student

under guidance, gives instruction to high school classes in one of the subjects he is preparing to teach.

Professor Gwynn should be consulted before registering for this course.

*Registration at the beginning of the first semester. Credit three hours. Professor Gwynn.*

## **XXV. Sociology**

PROFESSOR GWYNN

### **31. MARRIAGE AND FAMILY LIFE**

This course deals with problems facing young people in relationship to the major adjustments involved in choosing a mate and establishing and maintaining a home. Emphasis is put upon the values of the Christian home as an ideal.

*Three hours per week. First semester. Credit three hours.*

### **32. SOCIAL PROBLEMS**

This course attempts an analysis of certain typical problems of the social order, which reveal institutional progress, decay and reconstruction. The state will give credit for this course on a teacher's certificate.

*Three hours per week. Second semester. Credit three hours.*

## **XXVI. Spanish**

PROFESSOR FLEAGLE

PROFESSOR BLYTHE

### **11, 12. ELEMENTARY SPANISH**

College credit for this course is given only when Course 21, 22 has been completed. After all language requirements have been completed it will be given College credit.

This course is designed to give the student a fair knowledge of oral and written Spanish. Oral and written composition,

including social and business letters, forms an important part of the course. Juniors and Seniors electing this course are required to do additional work.

*Three recitations a week. Credit six hours. Professor Fleagle, Professor Blythe.*

## 21, 22. INTERMEDIATE SPANISH

This course is open to those who have completed Spanish 11, 12 and to students who present credit for two years of high school Spanish. The course includes a review of Spanish grammar, one period each week being devoted to this and to composition work. The other two recitations are devoted to reading and translating well-known Spanish novels and plays.

*Three hours a week. Credit six hours. Professor Fleagle, Professor Blythe.*

## 31, 32. ADVANCED COURSE IN SPANISH READING

Continuation of Spanish 21, 22, reading of more difficult texts, advanced composition, conversation. Students who have completed Spanish 21, 22 may elect this course or Spanish 41, 42.

*Three hours a week. Credit six hours. Professor Blythe.*

## 41, 42. SPANISH LITERATURE

A study is made of the most important works of Spanish prose and poetry with special emphasis on the authors of the Golden Age and the outstanding modern writers. Collateral reading covers modern authors and works in English descriptive of Spanish life and institutions.

*Three hours a week. Credit six hours. Elective for all students who have completed Spanish 21, 22 or its equivalent. Professor Fleagle, Professor Blythe.*

## 51. COMMERCIAL SPANISH

This course includes letter writing and drill on commercial forms, special study of problems in connection with Spanish-American trade, etc. One recitation each week is devoted to

lectures in Spanish on the history and geography of Spanish-America.

*Three hours a week during the first semester. Credit three hours. This course is open to students who have completed Spanish 21, 22 or its equivalent. Professor Fleagle, Professor Blythe.*

## 52. SPANISH-AMERICAN LITERATURE

A brief survey of the lives and works of Spanish-American authors. This is covered by one lecture a week in Spanish. The other two recitations are devoted to reading and translating Spanish-American novels and plays. Collateral reading also required.

*Three hours a week during the second semester. Credit three hours. Elective for students who have completed Spanish 21, 22 or its equivalent. Professor Fleagle, Professor Blythe.*

## 61. DON QUIXOTE

A study of the life and works of Cervantes with class work in reading and translating *Don Quixote*. Collateral work on special phrases of the *Quixote*.

*Three hours a week during the first semester. Credit three hours. Open to students who have completed Spanish 51 and 52 and students who have completed Spanish 41, 42 with a grade of at least C+. Professor Fleagle.*

## 62. LOPE DE VEGA

A study of the life and works of Lope de Vega, including the reading of the best of his dramas. Collateral work includes the works of other dramatic writers of this period.

*Three hours a week during the second semester. Credit three hours. Prerequisite the same as for Spanish 61. Professor Fleagle.*

## 71. HISTORY OF SPAIN AND SPANISH-AMERICA

A study of the history of Spain and Spanish-America, with special emphasis on the economic and social phases. Chapman's

*History of Spain* is used as a text. This course is used as a basis for conversation and composition work in Spanish.

*Three hours a week during the first semester. Credit three hours. Open to students who have completed Spanish 51, 52 or 61, 62. Professor Fleagle.*

## 72. CONTEMPORARY SPANISH NOVELISTS

A study of the present-day Spanish novel. Class work includes conversation and composition in Spanish.

*Three hours a week during the second semester. Credit three hours. Open to students who have completed Spanish 51, 52 or 61, 62. Professor Fleagle.*

## 81. THE SPANISH DRAMA

The development of the Spanish drama from the time of Lope de Vega, with special emphasis on present-day dramatists.

*Three hours a week during the first semester. Credit three hours. Open to students who have completed Spanish 51, 52 or 61, 62. Alternates with Spanish 91. Professor Fleagle.*

## 82. TEACHER'S COURSE IN SPANISH

A survey of the field covered in the two-year high school course in Spanish, with a study of the text-books used. Special methods of presenting the subject matter, and devices to be used.

This course may be accepted as a course in education upon approval by the Professor of Education.

*Three hours a week during the second semester. Credit three hours. Open to Seniors who have completed Spanish 11, 12 and 21, 22. Alternates with Spanish 92. Professor Fleagle.*

## 91. CONVERSATIONAL CLASS IN SPANISH

Based on text-books read and reported on in class. Spanish newspapers and magazines are also used as material. Admission to this section limited to students who have done high

grade work in previous classes, and who have mastered enough Spanish to profit by such a course.

*Three hours a week during the first semester. Credit three hours. Alternates with Spanish 81. Professor Fleagle.*

## 92. ADVANCED SPANISH COMPOSITION

A study of the more complex grammatical constructions, and their use in written composition. The constant use of written and spoken Spanish is a feature of this course.

*Three hours a week during the second semester. Credit three hours. Alternates with Spanish 82. Professor Fleagle.*

# GENERAL REGULATIONS

## Scholarship

1. Every new student, whether admitted by examination or certificate, is admitted on probation, and his matriculation will not be regarded as final until thirty days after his entrance.

2. Within six weeks after the opening of the fall semester, reports concerning the work of all students will be sent to parents. All Freshmen failing to pass as many as three three-hour courses shall be warned and all other students failing to pass three three-hour courses shall be placed on probation until the next or mid-semester report. Continued failure to pass three such courses may result in the requirement to withdraw at once in the case of upper classmen and, in the case of Freshmen, recommendation of withdrawal at the Christmas recess, unless marked improvement is noted.

3. A student who does not succeed in making the passing grade in at least three three-hour courses during a semester shall not be permitted to remain in college the following semester. Such a student may through the recognized channels of summer study recover his standing lost under this rule.

4. A student who fails a second time in a course required for graduation shall not be allowed to enter the session following his failure, unless the course is completed in summer school work.

5. If a student admitted to advanced classification is found deficient in the course assigned, he may be required to take lower courses in the same department, or to make such arrangements of his work as shall appear best.

6. Every regular student working toward a degree who may have entered College with conditions, is required to have those conditions removed by beginning of the Sophomore year.

7. The passing grade, which results from the combination of term standing and examinations, shall be D for all students. Grades are, in general, determined by combining term standing and examination grade in the proportion of two to one. In certain practical courses a greater emphasis is laid on the daily average.

8. A report of each student's grades and attendance is sent

to parent or guardian at the end of each semester, a report of scholarship, diligence and punctuality is sent within six weeks of the opening of the fall semester, and a much more detailed report of scholarship, diligence, punctuality, conduct, etc., is sent about the middle of each semester. If reports are not received within two weeks after the close of each semester, parents should notify the Registrar.

9. No student will be permitted to carry less than fifteen recitation hours per week in addition to the R. O. T. C. course without special permission from the Faculty. No student will be permitted to carry more than eighteen hours per week unless in the previous semester he made an average of B or over on all courses. Under no conditions will a student be permitted to carry more than twenty-one hours per week. An additional charge will be made of \$3.00 per semester hour above eighteen hours per week.

### **Courses Selected or Changed**

By April 15 each Freshman, Sophomore and Junior must in consultation with the Registrar and Faculty Supervisor, select and report the courses he is to take the subsequent session. After this date a fee of \$2.50 will be charged for such arrangement of courses. No changes can be made in the list after September 1st except by permission of the Faculty Committee, and on payment of \$1.00 for each change. When in the opinion of the committee any course has a full enrollment, no more may be admitted.

(NOTE: No room may be reserved for the next session until this registration is complete.)

### **Absences**

Students are required to attend classes and all College exercises. Detailed rules regarding necessary absences will be found in the Student Handbook which is placed in the hands of every student each year.

### **Absence of College Teams**

All College organizations and publications are subject to the supervision and control of the Faculty or its representative

committees, and no date or schedule of dates for contests with other organizations shall be arranged except with the consent of the representative committee of the Faculty. The number of days which athletic and other organizations are allowed away from College is limited by definite regulations.

No student shall represent the College on any organization away from the College unless he is reported as passing from the beginning of the semester on at least three three-hour courses, and no student will be allowed to go with more than one organization during a semester on trips away from the College, unless he is making a general average of at least B in his studies, or is passing all subjects with a grade of C or better.

The manager of the teams and clubs must, every two weeks during the session, furnish to the Dean's office alphabetically arranged lists of the team and club members in order to have a report made on their work.

The managers must apply to the Dean of Students for permits twenty-four hours before time for the team to depart.

No athletic team or other College organization, nor any part of such team or organization, is allowed to travel on the Sabbath, by train, automobile, or other conveyance, either going or coming from a trip on which they represent the College in any way.

All College organizations in their trips away from College must go and return as a unit. Extension of leave and side trips will not be granted to anyone.

Students other than members or officers of these organizations will not be permitted to make trips with the organizations.

### **Assignment of Rooms**

Assignment of rooms will be made by the Treasurer upon written application. No room will be reserved for a student until his registration fee of \$10.00 has been paid, and except in the case of new men, until he has registered his selection of courses for the next semester. If a student wishes to retain the same room he is occupying for another year, he must, in addition to paying his registration fee, notify the Treasurer in writing on or before May 10th, of his desire to hold this room.

A student of the College who does not deposit his registration fee by May 10th will be considered as not returning the next session, and applications for entrance after this date will be considered only in case the number to be admitted has not been reached. The assignment of rooms to new men will be made in order of the application, but no application will be considered until the registration fee has been paid and high school certificate has been received.

The registration fee will be credited as part payment of the fall semester dues. This fee will be refunded upon request provided the Registrar or Treasurer is authoritatively notified before July 1st that the student will not enter. After that date the fee will not be returned.

Three days after the opening of College, room reservations will be cancelled unless special notice is given that the student will be a few days late matriculating.

No student is allowed to transfer from one room to another unless the permission of the Treasurer has been received in advance. To prevent miscellaneous and useless transfers, a fee of \$2.50 will be charged for each transfer after October 1st in the case of all students except Freshmen, and in case of Freshmen, this rule will apply after January 15th.

With the exception of a few single rooms, all dormitory rooms accommodate two students. No student can reserve more than his share of the room, but the Treasurer will co-operate in every way possible to see that the students are congenially mated. All double rooms are practically the same size, have two windows, and two single beds. All rooms are equipped with I. E. S. students' reading lamp. (The College furnishes bed, chiffonier, table and chair. The student furnishes his own linens, blankets and pillow.)

# **COLLEGE ORGANIZATIONS**

## **Student Government**

This is one of the most important student organizations in the College. It includes the entire student body. Student government is administered by the Student Council, which is composed of fifteen members, including the president of the student body, the presidents of the respective classes, five representatives from the Senior class, three from the Junior class, and two from the Sophomore class. Student government has a detailed and comprehensive constitution, setting forth the purpose for which it is organized and the methods by which it works. This constitution is printed in full in the Student Handbook. Stated in general terms its purpose is "to strive to uphold and preserve the Honor System and all other provisions of the constitution in every department of College life." It has had much to do in creating and maintaining the fine spirit and high ideals which are found on the Davidson College campus.

## **Young Men's Christian Association**

The Young Men's Christian Association stands at the very center of the religious life of the College. It has probably had a larger influence in developing students in Christian character and training them for Christian service than any other single agency in College life. All students are members, or associate members, of the Association. It conducts weekly religious services for the whole student body. As a department of the Association, the candidates for the ministry hold monthly meetings. There are also weekly Bible study, and mission study classes, and weekly meetings of the volunteer mission band. Working under the auspices of the Association the students do various forms of Christian work. Some teach Sunday School classes in organized churches, others conduct Sunday Schools at mission points, while still others go on deputation work to the churches of surrounding towns and cities. At the opening of College each year the Association has committees to meet new students upon their arrival and render them any possible assistance in getting located. On the first Monday night of the

session the Association gives a reception to the new students to which all students, professors, and friends are invited. The Handbook which the Association publishes annually, giving information about College life and College organizations, is indispensable to new students and to the old ones. MR. ALBERT B. McCLURE, *Secretary*.

### **Church Services**

The Presbyterian Church, which is located on a corner of the Campus has ministered to the spiritual needs of the students of the College for many years. All students are cordially invited and urged to attend the services of the Church. The minister, Rev. H. M. Moffett, D.D., is earnestly desirous of being a real pastor to the young men of the College and earnestly invites them to make this their Church home while here in College.

Preaching services are held in the College Chapel every Sunday evening at six-thirty. These services are conducted by guest ministers who are believed to have especial gifts for speaking to young men. During each session some of the best known ministers in the whole country are invited to preach at these services. All students are required to attend Sunday Vesper Services in the College Chapel.

### **Literary Society**

The Eumenean and Philanthropic Societies, conducted by the students, afford opportunities for training in debate, public speaking, and parliamentary usage. Annual prizes for excellence in literary and rhetorical exercises are awarded.

### **Phi Beta Kappa**

To the Davidson Chapter of this scholarship fraternity are eligible those members of the Senior class who have attained a high degree of success in their College work. Not more than twelve and one-half per cent of this class can be elected to the society in any one year.

### **Omicron Delta Kappa**

This is an intercollegiate honorary fraternity which seeks to give recognition for leadership. It honors those who have rendered conspicuous service and opens the way to give inspiration for greater usefulness. Its meetings are a clearing house for the exchange of ideas, and bring together on a basis of mutual understanding members of the faculty and leaders of the student body, thus making it possible to see each other's point of view. It fosters proper relationship and clear understanding between all phases of College activities, and aspires to direct College sentiment, mold campus opinions, and launch forward movements.

### **Sigma Pi Sigma**

This physics fraternity was founded at Davidson in 1921, and now has grown to be a national organization having chapters in twenty-five colleges and universities throughout the United States and the Philippines. It aims to create interest in physics, encourage research and provide a meeting place where faculty and students can come and discuss the problems and progress of this science. Membership is limited to those who have obtained high scholarship and shown due interest in this field.

### **Athletic Association**

Athletic matters are directed by a joint committee, composed of three groups. The first group is the student Athletic Council, whose members are elected by the student body. The second group is a Faculty Committee. The third group is the Alumni Athletic Council. These three groups acting together constitute the Athletic Association. Athletics are under the final control of the Faculty.

All students have full athletic privileges, including free admittance to all contests held on the College Campus. Under the supervision of the Professor of Physical Education, any student may engage in any form of athletics for which the College Physician finds him fitted.

The fact that Davidson College has maintained a high standard in intercollegiate athletics may be attributed largely to the

interest of the students in the Athletic Association. A sufficient number of athletic contests are held on the campus each year to offer students ample opportunity to witness such competition without the necessity of expenditure of personal funds. In games played on neutral grounds in nearby cities, such students as may attend are admitted for half price.

In the matter of eligibility for participation in intercollegiate athletic contests, the practice of Davidson College is in harmony with the policy of the best institutions. Each athletic team is allowed a limited number of days away from College for engaging in games with the other colleges. Further rules and regulations are published in a special bulletin.

### **Greek Letter Fraternities**

There are nine National Greek Letter Fraternities at Davidson and one or two local fraternities. Their purposes are largely of a social nature. Fraternities, by agreement among themselves, as well as by a faculty rule, are not allowed to pledge any student until a fixed date soon after the opening of the College in the fall, or to initiate any student during his first semester in College. Certain rules and regulations governing this and other phases of fraternity life are published in the bulletin of rules and regulations.

### **Social Activities**

Davidson is noted for its friendly spirit. Conveniently located in dormitories on the campus, or in nearby houses, each man comes in close touch with many students and is able to form a wide circle of friends. Students are cordially welcomed into the homes of the faculty members. The centrally located Y. M. C. A. rooms are a common meeting place for all students.

The more formal social occasions of the year include the Freshman Reception, week-end parties of the fraternities, Junior Class Week, and the social features of Commencement Exercises.

## COLLEGE LECTURES AND PUBLICATIONS

In 1893 Rev. J. M. P. Otts, D.D., LL.D., endowed a foundation at Davidson College, the income of which is to be used in securing distinguished speakers, from time to time, to deliver at the College courses of lectures in defense of Christianity against current heresies, especially such as may seem directed at the foundations of the Christian faith. It was also the desire of the founder that the lectures should be published in book form.

The first course of lectures on this foundation was given in 1893, by Dr. Otts himself, and published under the title, "Unsettled Questions"; the second was given in 1897, by Rev. R. L. Dabney, D.D., LL.D., and published under the title, "Christ Our Penal Substitute"; the third was given in 1904, by Rev. J. B. Shearer, D.D., LL.D., and published under the title, "Modern Mysticism"; the fourth was given in 1921, by Rev. Walter W. Moore, D.D., LL.D., on "The Permanence of the Christian Ideal"; and the fifth was given in 1930, by Rev. Harris E. Kirk, D.D., LL.D., on "Man's Place in Nature and Beyond"; the sixth in 1934, by Rev. Clarence Edward Macartney, D.D., on "Christian Faith and the Spirit of the Age"; and the seventh in 1935 by Dr. Robert E. Speer on "The Meaning of Jesus Christ in Personal Experience."

### Special Lectures

A number of outstanding speakers are brought to the College each year, under the auspices of the Faculty Committee on Public Lectures. They address the students on subjects which are of special interest in the educational world. Sometimes they deal with questions of national and international importance.

### Freshmen Lectures

The College has adopted the custom of having what has come to be known as "Orientation Week." For two days at the opening of the session in the fall the members of the Freshman class meet frequently in the College Chapel and hear

practical lectures by different members of the faculty on various phases of College life. Attendance upon these lectures is required.

During the session the College physician gives a series of ten or twelve lectures to the Freshman class on Physiology and Hygiene. These lectures are of a very practical nature and are intended to instruct students in the care of their bodies and general health. Attendance is required.

### **The Davidson College Bulletin**

This is a monthly publication and is sent to the alumni, to ministers, and to others who may desire it. The bulletin contains many items of interest about the College and its work. It also contains alumni news notes from time to time. The Annual Catalogue and the Alumni Journal are published under the head of the College Bulletin.

### **Student Publications**

*The Davidsonian* is a weekly College newspaper. Its editors and managers are elected by the student body.

*The Magazine* is published four times a year. Its editor and managers are elected by the student body.

*Quips and Cranks* is the College Annual which is published each year by the Senior class. It contains much information about classes, fraternities, athletics, musical and literary organizations, and many other matters of interest. It also contains many photographs of groups, of individuals, and of buildings.

No student publication is allowed to be issued in any year until all arrearages for the previous year have been paid.

# HONORS, MEDALS AND TROPHIES

## HONORS

1. *The Honor Roll.* All students who take a full course, and who attain an average of A or more in their studies for an entire session, are placed upon the Honor Roll, which is published in the annual catalogue.
2. *General Honors.* Those students who take a regular course of study and for four years average A or above shall receive the distinction of "Summa Cum Laude." Those who average between B+ and A shall receive the distinction of "Cum Laude." These distinctions shall be shown on their diplomas.
3. *Group Honors.* Those students who do the work of one of the courses—A.B. 1, A.B. 2, B.S. 1, B.S. 2—and special work in one of the groups, shall be graduated with high honors, or honors in the group of their concentration. See page (37), Group Honors, for complete statement.
4. *Class Honors.* That member of the graduating class who makes the highest average in his studies for the four years shall deliver the Valedictory at Commencement, and the member of the class who makes the next highest average shall deliver the Salutatory.

## Medals

1. *The William Banks Bible Medal.* The family of the late Rev. William Banks, long a trustee and President of the Board, has established in his memory a fund which provides a medal to be given each year to that member of the graduating class who has completed the entire Biblical course with the highest distinction.
2. *The Mrs. F. J. Hay, Sr. Bible Medal.* This handsome medal is awarded to that member of the Freshman class who makes the highest grade in the courses in the English Bible during the Freshman year. The medal is provided for by the income from an endowment established by three sons in honor of their mother.
3. *Senior Orator's Medal.* At the Commencement period, four members of the graduating class selected on the basis of their previous success in oratory, compete for a handsome gold medal, known as the Faculty Orator's Medal.

4. *Alumni Association Medal.* A medal is annually awarded in the name of the Alumni Association to that member of the Freshman class who has been classified through the year in one of the degree courses and has made the highest average of the class.

*Alumni Debating Cup.* Awarded each year to the Literary Society which wins the inter-society debate.

*Fraternity Cup.* Awarded each year to the Greek letter fraternity whose membership makes the highest average in classroom grades for the year. It becomes the permanent possession of the fraternity which wins it for three consecutive years. The cup awarded this year is furnished by Mr. and Mrs. W. H. Belk.

### **Athletic Trophies**

*Intramural Trophy.* On this cup are annually engraved the numerals of the class that wins the greatest number of points in competition that includes ten different sports and activities.

*Body-Building Trophy.* Awarded to the student who shows the greatest physical improvement during each scholastic year; (such improvement is noted from physical measurements taken in September and again in March).

*Decathlon Trophy.* Awarded to the student making the greatest number of points in prescribed track events.

*Gymnastic Trophy.* Awarded to the student winning the greatest number of points in gymnastic competition.

*Tim Pharr Trophy.* Awarded to the best blocker on varsity football team.

*Sigma Delta Psi Trophy.* Awarded to the student making the greatest number of points in the competition prescribed by the National Athletic Fraternity. In this competition the winner is required to pass each of the fourteen tests required.

*Interfraternity Cup.* Awarded to the fraternity that wins the greatest number of points in competition covering prescribed sports.

## EXPENSES

College fees for 1936-37 will be due and payable in two installments of approximately equal amounts as shown below.

If the student or his parents finds that it is not conveniently possible to meet this schedule of payments, smaller payments may be arranged if request is made to the Treasurer ten days before College opens.

For payments deferred beyond due date there will be added a carrying charge for each half-year of \$2.50 if the amount deferred is \$50.00 or less; if the amount deferred is more than \$50.00, the added charge will be \$5.00 for each half-year.

For estimate of other costs, see page 106.

See next page for laboratory fees required of students taking scientific courses.

| Psychology 51-52 -----                       | 2.00      |         |

### Additional Charges

Late Matriculation, see page 27.

Change of course, see page 93.

Change of room, see page 95.

Extra curriculum hours, see page 93.

### Refunds

The R. O. T. C. deposit of \$10.00, included in the fall term fees, will be refunded when the Government property is properly accounted for and returned at the end of the course in the spring. This deposit may be used as a registration fee for the next year, if the student so desires.

The damage deposit of \$2.00, less charges against it, will be refunded at Commencement.

\*To cover expenses of field trips and visual instruction.

### Other Expenses

*Board.* The College does not conduct a boarding department. The students take their meals at ten or twelve different boarding houses, which are located in the town, near the campus. The price of board for 1935-36 ranged from \$21.00 to \$25.00 a month. Each boarding house has a student manager, who solicits the students when they arrive, and collects the board monthly in advance. Arrangements for board can be made after the student reaches Davidson.

*Books.* There is a Book Store in the Chambers Building, where all text-books and other departmental requirements are sold to students. Students are expected to pay cash for their books. The cost of books per year for a student ranges from \$20.00 to \$30.00, depending on the courses the student is taking and on whether he is able to purchase second-hand books. After the first year many students sell their old books to help pay for new ones. The small profit which the Book Store makes goes to the Societas Fratrum Student Loan Fund.

*Clothing, Travel and Incidentals.* The cost of clothing, travel and incidentals can best be estimated by the student and his parents. Some students spend much more than others. A student's expenses on the Davidson campus need not be any more than they are at home.

No one need feel that the lack of spending money will bar him from the social or athletic life of the campus or deprive him of influence or popularity. Life at Davidson is essentially democratic.

If a student joins a Greek letter fraternity he will need extra money for that purpose.

### Estimated Expenses

College officials are frequently asked what it costs a year to send a boy to Davidson. A general estimate of the total necessary living expenses, exclusive of clothes, pocket change, social life, fraternity expense, travel, etc., is here listed:

|                                                            | Minimum         | Maximum         |
|------------------------------------------------------------|-----------------|-----------------|
| Tuition and maintenance (paid to College)                  | \$200.00        | \$200.00        |
| Room rent and service (paid to College)--                  | 50.00           | 100.00          |
| Laboratory fee (paid to College)-----                      | 6.00            | 25.00           |
| For student activities (paid through College office) ----- | 14.00           | 14.00           |
| Athletic fee (paid through College office)--               | 10.00           | 10.00           |
| Laundry (paid to College)-----                             | 24.50           | 24.50           |
| Books and stationery (paid to Book Store)                  | 20.00           | 35.00           |
| Board (paid to private boarding houses)--                  | 180.00          | 212.50          |
| Total -----                                                | <u>\$504.50</u> | <u>\$621.00</u> |

(Candidates for the ministry and ministers' sons are granted a reduction of \$100.00 from these sums.)

## FINANCIAL ASSISTANCE

A great many students need some kind of financial assistance to secure a college education. There are three general ways in which this assistance may be provided. We suggest that the student who needs assistance should study these ways carefully. We list them in the paragraphs which follow.

### Self-Help

A large number of students are meeting a part of their expenses by some form of self-help. The College has a limited number of self-help positions, but they are of such a nature that most of them have to be filled by upper classmen. Quite a number of students in the upper classes are awarded positions as monitors, assistants to professors, assistants in the Library, etc. Such positions are awarded on the grounds of merit, as well as of need. The College does not operate a boarding department, but there are a considerable number of self-help positions in privately-owned boarding houses in town. These positions are awarded by the owners of the boarding houses, and are secured by students in person or through their friends. A number of students act as agents for clothing houses and other mercantile firms, others clerk in the students' store, paint signs, or find some other kind of employment for which they have special talents. It is not usually possible for a new student to secure a self-help position before coming to College. Those who are looking for helpers usually want students with experience and those with whom they are acquainted. Not only so, but upper classmen who are on the grounds usually secure positions the moment they become vacant. As a matter of fact, it is not wise for a student to undertake outside work if he can possibly avoid it, as it interferes with his College work.

The Y. M. C. A. is always glad to assist students in securing self-help positions. Address the Secretary of the Y. M. C. A., Davidson, N. C.

### Scholarships

The College has a limited number of scholarships which pay \$50.00. They are awarded solely upon the grounds of need and merit. One's merit is judged by his character, scholarship

and attitude. Scholarships are awarded by a faculty committee for only one year at a time. It is earnestly hoped that only those who are in absolute need will apply for scholarships. The faculty reserves the right to revoke a scholarship if the work or character of the student is not satisfactory, or if he seems to be spending money unwisely.

A reduction of \$100.00 a year is made in the College fees of sons of ministers and missionaries and candidates for the ministry who are under the care of a Presbytery. This is regarded as a scholarship for that amount, and, as a rule, no additional scholarship funds are awarded to students for whom this reduction has been made.

Applications for scholarships should be made to the President of the College.

### **Loan Funds**

The College has a limited revolving loan fund which has been used to assist a great many students in the past. In order that this fund may serve its purpose in helping as many students as possible it must be kept revolving. That being true, it is essential that those who borrow from this fund should repay their loans as speedily as possible after leaving College. Awards from this fund are made by a faculty committee. When a student borrows from the fund he signs his legal note for the amount just as he would do at a bank. The note must also be signed by his father, legal guardian, or some other reliable person. In borrowing from this fund the student agrees to begin payment upon his loan as soon as he graduates or leaves College, and to repay the entire loan at the earliest possible date. Those who borrow from the loan fund should consider their obligations just as binding and just as sacred as if they had borrowed from a bank. Applications for loans should be made to the President of the College.

### **Sources of Loan Funds**

The Student Loan Fund at Davidson has been accumulating for many years and there have been many contributors to it. The following constitute some of the larger contributions: The James Sprunt Ministerial Loan Fund, The J. D. Woodside

Loan Fund, The Maxwell Memorial Loan Fund, The W. H. Sprunt Loan Fund, The David Prince Loan Fund, The Masonic Loan Fund, The C. W. Johnston Loan Fund, The J. S. White Loan Fund, and the Societas Fratrum Loan Fund, Hartley E. and Blanch Boorum, Class of 1932, Scottish Rite, O. J. Thies, Jr., Jane Parks Grey, Bessie N. Allison.

### **Source of Scholarship Funds**

From time to time since the founding of the College to the present friends have been making contributions for the endowment of scholarships. These contributions, large and small, amount now to a gratifying sum. Yet, as the size of the student body has grown and the cost of living increased, the number of worthy students who need financial assistance has greatly increased and the amount available is altogether inadequate for the needs. Many friends of the College have recognized college scholarships as the most fitting memorial for some individual or family. The following scholarships have been established at Davidson:

**Scholarships to Assist Students in Meeting College Expenses**

| <i>Established by:</i>                                                            |            | <i>Designated as:</i>    |
|-----------------------------------------------------------------------------------|------------|--------------------------|
| The First Presbyterian Church,<br>Salisbury, N. C.-----                           | \$1,000.00 | The Maxwell Chambers     |

### Ministerial Scholarships

Ministerial scholarships to assist Davidson College in carrying the remissions in fees made to candidates for the ministry, endowed in units of \$1,000.00, have been made by interested friends who wanted to have a share in this high privilege of training the future religious leaders of our Church. The following endowments have been created for this purpose:

|                                                                 |                                  |
|-----------------------------------------------------------------|----------------------------------|
| J. M. Knox, Salisbury, N. C.                                    | One Ministerial Scholarship      |
| Mr. and Mrs. Thos. F. Bagley, Wilmington, N. C.                 | The Thomas Payne Bagley Memorial |

### Other Memorials

In addition to the scholarships and gifts for student aid and prizes listed above, Davidson College has many other and much larger memorials in the form of endowments for different purposes, such as professorships, buildings, equipment, memorial rooms in the Chambers Building, athletic fields and stadium, and others too numerous to mention in space available here.

### Rhodes Scholarships

Students of Davidson College are eligible for appointment to the Rhodes Scholarships, tenable at the University of Oxford, England. These scholarships may be held for two or three years, and in some cases the third year may be spent at a continental university. There is also ample time during vacations

---

\*Income to pay services of student assistant in one of the departments.

for study and travel on the Continent. The annual stipend is four hundred pounds (about \$2,000). Every year in December in each state an election is held, at which two men are selected to appear before the district committee. Our district comprises the states of Virginia, North Carolina, South Carolina, Georgia, Florida and Tennessee. Of the twelve candidates nominated in these states, four are selected as Rhodes Scholars at the regional meeting in Atlanta. From the eight districts of the United States thirty-two men are appointed each year. They enter Oxford the October following their appointment.

A student may stand as a candidate either in the state of his legal residence or in the state in which his college is located.

The following Davidson men have been awarded Rhodes Scholarships: W. P. Mills (from South Carolina in 1907), B. R. Lacy (North Carolina, 1907), S. T. McCloy (Arkansas, 1919), J. McD. Richards (North Carolina, 1923), R. F. Davidson (South Carolina, 1926), D. Rusk (North Carolina, 1930), and Carleton B. Chapman, (Alabama, 1936).

# DAVIDSON COLLEGE ALUMNI ASSOCIATION

## Annual Meeting

The Davidson College Alumni Association meets in annual session during Commencement. All former students of Davidson and the North Carolina Medical College are members of the Association.

## Trustees

The trustees of the College have given the Association the privilege of electing twelve trustees of the College, three being elected each year for a term of four years.

## Local Chapters

Davidson College alumni have formed alumni chapters throughout the country. Thirty-four of these local chapters have been organized. Many of the local groups have their annual meetings on Founders' Day, which is commemorated every spring.

## Publication

The alumni voted to make the *Alumni Journal* the official publication of the Association. This magazine is issued four times during the year.

## Officers

*President*, Hugh A. Query, '09, Gastonia, N. C.

*Treasurer*, Frank L. Jackson, '09, Davidson, N. C.

*Secretary*, Grier Martin, '32, Davidson, N. C.

## Executive Committee

The Executive Committee of the Alumni Association is made up of all the past presidents of the Association, with the president serving as chairman of the committee. This committee directs the work of the Association.

## Special Students

|                                  |                   |
|----------------------------------|-------------------|
| Mary Ruth Adams .....            | Davidson, N. C.   |
| Andrew Moreland Cunningham ..... | New London, Conn. |
| Margaret McDowell Douglas .....  | Davidson, N. C.   |
| Miriam T. Goodrum .....          | Davidson, N. C.   |
| Susan Emily Goodrum .....        | Davidson, N. C.   |
| Dorothy S. Johnston .....        | Davidson, N. C.   |
| *Sara Louise Johnston .....      | Davidson, N. C.   |
| Louise M. Martin .....           | Davidson, N. C.   |
| Mary Louise Moffett .....        | Davidson, N. C.   |
| Martha Rachel Raymer .....       | Davidson, N. C.   |
| Elizabeth Ann Rhett .....        | Davidson, N. C.   |
| Mrs. Charles W. Seifert .....    | Davidson, N. C.   |
| Augustus Worth Shaw .....        | Fort Mill, S. C.  |
| Mary Copeland Withers .....      | Davidson, N. C.   |

## SUMMARY

|                  |           |
|------------------|-----------|
| Seniors .....    | 131       |
| Juniors .....    | 144       |
| Sophomores ..... | 178       |
| Freshmen .....   | 207       |
| Special .....    | 14        |
| Total .....      | <hr/> 674 |

## Applicants for Degrees

|                             |           |
|-----------------------------|-----------|
| Bachelor of Arts (1) .....  | 16        |
| Bachelor of Arts 2 .....    | 111       |
| Bachelor of Science 1 ..... | 225       |
| Bachelor of Science 2 ..... | 308       |
| Total .....                 | <hr/> 660 |

## Representation

|                             |    |
|-----------------------------|----|
| Alabama .....               | 15 |
| Arkansas .....              | 5  |
| Colorado .....              | 1  |
| Connecticut .....           | 3  |
| Delaware .....              | 1  |
